WRECKAGE FROM BOMBER SMASHUP. U.S. Navy and Air Force personnel sift through the wreckage of the recreation building at the U.S. Naval Air Facility at El Centro, Calif., Tuesday, looking for bodies after a twin-engine jet bomber crashed in flames during a low-level demonstration flight. The recreation area consisted of a one-story chain of buildings, which included a children's toyshop for Christmas. (UPI Telephoto)

Tragedy At California Navy Base

9 Killed And 35 Injured In Fiery Smashup Of Jet

EL CENTRO, Calif. (AP) — A jet bomber skimmed low over a crowded reviewing stand— and then faltered, hit a power pole, and smashed in flaming pieces across the center of a Navy base, killing nine men.

Among those who died were the three crewmen of the A3D twin-jet bomber.

The other six victims were men in buildings near the runway of the El Centro Naval Air Facility, where the plane crashed Tuesday during a parachuting demonstration.

Thirty-five persons were injured, six critically.

The 70,000-pound jet came apart in the air after one wing snagged the power line. The shower of blazing wreckage scattered 400 yards across buildings and parking lots, setting two major fires, smashing buildings, setting autos afire.

Women and children — servicemen's dependents — were among the victims.

"Women were running across the street through the burning heat with their hair on fire," said a witness. "Their children were screaming."

The crowded main exchange — comprising a drugstore, supermarket and snack bar — was hit by the plunging fuselage.

A wing smashed into the station's administration building.

A mass of flaming wreckage plunged into the post theater and killed James Wall, 27, of Long Beach, a quartermaster, as he was testing a film which was to have been shown Tuesday night.

A sailor painting chairs in a service building hit by the plane was bounced off the ceiling, then flung out through a hole in a wall. The building burst into flames. He ran to aid his friends, trapped inside, and was hurled back by a blast and injured.

Blazing jet fuel showered much of the quarter-mile of impact area.

One engine smashed all the way through the chapel — which was empty — burst out the other side and smashed cars in a parking lot beyond.

Black columns of smoke rose high in the air over the base as the parachuting demonstration — a ceremony marking the 25,000th parachute jump made at the base, a major parachute testing and development facility — came to an end.

Bedford Sutherland, 22, a parachute rigger who made the leap, watched the crash. He had just bailed out of the plane.

Crewmen aboard wished him luck as he jumped through a bottom hatch. He pulled the ripcord handle — gold-plated to mark the 25,000th jump — and made a perfect landing near the reviewing stand.

He had planned to give the handle to Cmdr. Arthur Perkett, 49, commanding officer of the aerospace recovery unit at the air facility, one of the three crewmen aboard the A3D.

Johnson And Goldwater Trade Political Punches

'Kidnaped' Democrats, Barry Says

Hammers Away At Claim Johnson's Hungry For Power

CEDAR RAPIDS, Iowa (AP) — Sen. Barry Goldwater said today President Johnson "kidnaped the Democratic party" for eventual delivery to Socialists when he chose Sen. Hubert H. Humphrey as his running mate.

The Republican nominee for the White House hammered away at his charge that Johnson is hungry for power, and accused the President of trying to frighten people into voting for him.

"I charge," the Arizona senator said, "that the Johnson machine is driven by lust for power, by fear of the exposure of wrongdoing in high places, by fear of punishment and by hope of special privilege."

Goldwater alternated between defense and attack in a speech prepared for a rally at Cedar Rapids, Iowa. It kicks off a day of Midwestern vote-hunting that will take him also to Oshkosh, Wis., and East St. Louis, Ill.

Johnson, he said, "has failed to arouse real grass roots support for his candidacy."

Goldwater declared Republicans have that kind support, and said the backing of small newspapers and of "close to one million" small contributors demonstrate it.

The senator said of Johnson:

"He has the support of many traditional Democrats who accept his party label, without looking beyond it to see that in handpicking Hubert Humphrey as his successor he has kidnaped the Democratic party — tied it up in a neat bundle for eventual delivery to the Americans for Democratic Action, the most effective radical socialist organization in the land."

Goldwater had been chopping away at Humphrey all week. "Every time I think of the small possibility that the President might be re-elected, I shake," he said in London, Ky., Tuesday. "But when I think of Hubert, I really get the trembles."

Goldwater complained that Johnson has "the support of many good and honest people who, even though they are heartsick at the moral blackout in the Johnson administration, nevertheless have been swayed by one of the most immoral actions of all — the big lies of the administration."

He said Johnson misrepresents his positions, and will not debate campaign questions.

In Cleveland Tuesday night, Goldwater tackled the question of civil rights, arguing that the busing of schoolchildren from one neighborhood to another for the sake of racial balance is "doctrinaire and misguided equalitarianism."

That drew a wild ovation from a crowd estimated at 12,000 — in a city which has seen rioting over the issue.

In Talks With Johnson Soon

U.S. Eyes British Chief For NATO Atomic Plans

WASHINGTON (AP) — U.S. officials hope that British Prime Minister Harold Wilson will be ready to make concrete proposals for organizing a nuclear weapons force for the North Atlantic Treaty Organization when he comes here for talks with President Johnson in about six weeks.

The NATO nuclear problem was the major issue posed in conferences with Johnson administration leaders Monday and Tuesday by the foreign secretary of the new British Labor government, Patrick Gordon Walker.

Gordon Walker told a news conference Tuesday that the British government needs time in which to formulate specific plans in the NATO nuclear weapons field.

He also assured U.S. officials that his government did not intend to stall on the problem for the sake of delaying indefinitely action within NATO on a U.S. proposal for a nuclear armed force of 25 surface ships — known as the MLF — which would be jointly owned and manned by participating allied countries.

Johnson's deadline for getting basic agreement on the formation of such a force has been the end of this year. It is now very questionable that this deadline can be met although U.S. officials made clear it has not been formally abandoned.

The Labor party's approach now seems to be that a broader concept for a NATO nuclear force is necessary — some kind of plan which would cover not only any seaborne force but also land based nuclear weapons in the NATO area of Western Europe.

While the British have stressed the need for delay, the United States has been under pressure from West Germany to act on the MLF with all possible speed. West German leaders recently suggested that if other NATO allies were unwilling to participate West Germany and the United States should act alone to conclude an MLF agreement by the end of the year.

The United States is reluctant if not flatly unwilling to make such an agreement with West Germany alone since the American interest in the MLF has been to enlist the participation of as many allied countries as possible.

Washington authorities now look to direct British-German talks to produce some understanding on timing which may be satisfactory all around. Gordon Walker plans to meet with West German Foreign Minister Gerhard Schroeder in mid-November.

Gordon Walker conferred here with President Johnson, Secretary of State Dean Rusk, Secretary of Defense Robert S. McNamara and other officials. Rusk said after the 45-minute meeting with the President that Gordon Walker's visit to Washington — two weeks after the new Labor government took over in London — had been "extremely valuable."

"We're off to a very fine start," Rusk said. Gordon Walker agreed.

President Rips Foe In Pittsburgh

Claims He Wraps Vote Issues Around Republican's Neck

LOS ANGELES, Calif. (AP) — President Johnson, who claims he is wrapping election issues around Barry Goldwater's neck, said today he will "not play the war game of bluff and bluster."

Johnson bore down on questions of war and peace in a speech prepared for an outdoor audience at Albuquerque, N.M., start of a day-long tour through the West that actually was aimed primarily at voters in Southern California.

The President's strongest language was prepared for the New Mexico crowd.

He said: "The stakes in the election are success and survival. The issues are recklessness or responsibility."

Going on to stress issues which he says find him and Goldwater far apart, Johnson concluded, in his stiffest language: "We cannot and we will not play the war game of bluff and bluster. That risk is too great."

Before swinging into the West, Johnson made a quickie tour of the Northeast Tuesday night. In Pittsburgh's ultra- modern Civic Auditorium, he delivered one of the most surprising speeches of his campaign.

Ticking off a series of major policy questions, including the civil rights law, Johnson said with direct reference to Goldwater: "These are all issues in this campaign, and we are wrapping them right around his neck."

The President later, speaking off the cuff, cited a newspaper advertisement — repudiated by Goldwater — which he said claims that his administration seeks laws that would make Negroes happy, jobwise, and white people glum.

"I want to meet that one head on," he said.

"That is pure, dirty racism and propaganda that is being passed around. There is not any bill that Congress ever passed that takes any job away from anybody."

Johnson said some people "put out a lot of words to try to smear and fear and scare people who are working by saying that some other man is going to get his job."

$4,000 Loss Set In Blaze At Wellsville

Child Playing With Matches Blamed In Report Of Firemen

A $4,000 fire that hit a Wellsville home Tuesday was started by a child playing with matches, firemen reported today. In another blaze, a Wellsville woman was cited for allowing the fire to get out of control.

Fire Chief Robert Lewis said the blaze at the home of Mr. and Mrs. William Pullie Jr., 409 Johnson Pl., was started by a 4-year-old shortly before noon.

The child and her 7-year-old brother were playing in a second-floor bedroom. The girl ignited bed clothing with the matches. They were at home alone at the time as the mother was visiting a nextdoor neighbor, firemen said.

The boy ran from the home and notified the mother. She removed the girl from the home.

When the firemen arrived, the entire bedroom was in flames and the fire had burned through a wall and was burning heavily in the attic.

Firemen battled the flames for about 45 minutes. The bedroom was heavily damaged as was the wall and the attic and roof area.

Damage on the lower floor was caused by smoke and heat.

The house is covered by insurance but not the loss to the contents, Lewis said.

Firemen were called to the home of Mrs. Eva Hilton, 1309 Commerce St., when a shed in

Britain Drops Use Of Troops In Rhodesia

LONDON (AP) — A Labor government spokesman Tuesday night ruled out use of British troops to prevent Southern Rhodesia's government from declaring the East African territory independent to preserve white rule.

"This is a question which does not arise," Commonwealth Secretary Arthur Bottomley told newsmen when asked about the possibility of British military action.

Prime Minister Harold Wilson made no mention of military action Tuesday when he warned Rhodesian Prime Minister Ian Smith of the consequences if his government declares independence without approval from the British Parliament.

Wilson said Rhodesia would be guilty of treason and banished from the Commonwealth and would face certain political, diplomatic and economic isolation. Both the Labor government and its Conservative predecessors want Rhodesia's ruling white minority to agree to a constitution promising the black majority eventual control.

In New York, the U.N. Special Committee on Colonialism called for talks with the British government on the "gravity of the situation" in Rhodesia. The committee also alerted the Security Council to the possibility of a unilateral declaration of independence by Smith.

Officer Gets 30 Days Off In Car Crash

Bosworth Receives Penalty In Cruiser Mishap Of Oct. 13

Upholding charges of "inefficiency and incompetency" filed by Chief A. J. Radeschi, Safety-Service Director Robert E. Vodrey Tuesday afternoon decreed a 30-day payless suspension for a patrolman whose cruiser crashed into a St. Clair Ave. utility pole Oct. 13.

Patrolman Howard Bosworth's suspension will begin at 12:01 a. m. Sunday, the director said in a formal order handed the officer.

Vodrey issued the ruling after conducting an investigation Monday, as the law requires, on the charges filed by the chief.

A cruiser operated by the patrolman crossed outer St. Clair Ave. at 2:26 a. m. and crashed into a utility pole. After an exhaustive investigation, the chief ordered the disciplinary suspension Monday, subject to review by the director.

The director's letter said the investigation "indicated he was guilty of gross neglect of duty, to wit: inefficiency and incompetency in office, in that on Oct. 13 at 2:26 a. m. he operated a police cruiser while not on an

Survey Reported At Lisbon

77% Of County Students Desire Vocational School

A desire for vocational training has been expressed by 77 per cent of sophomores and juniors throughout Columbiana County, according to a survey report made at a meeting of school, industrial and labor leaders Tuesday night at Lisbon.

Across Ohio 75 per cent of high school students are enrolled in college preparatory courses, yet only one - third of these students enroll in college and almost half of these drop out of college, a further report showed.

These and other educational trends are being examined in Columbiana County in preparation for possible establishment of a joint vocational school to serve a number of all of the county's 11 school districts.

About 130 attended the dinner meeting at the Lincoln School at which the county survey was announced and industrial and business leaders completed questionnaires concerning the need or feasibility of a vocational system.

County Supt. James McBride, chairman, introduced Mrs. Margaret McIniry of the State Department of Education, who spoke on the vocational program and introduced other department aides in the program.

They included Lester Crabbe, district vocational agriculture director; Robert Balthaser, business education; Jess Powers, distributive education; Miss Grace Beckwith, home economics education; Dr. Charles Nicholos of Kent State University, and Harry Davis, state supervisor of trade and industrial education.

Each of the administrators met with the county industrial, trade and school leaders interested in each field.

Questionnaires concerning the area need for specially trained workers and the availability of jobs were filled out by the area leaders.

The county survey, made of 3,468 10th and 11th graders in all 11 county school systems in September, showed 471 or 13.5 per cent indicated a desire for vocational training and have no plans for college or other post-high school education.

There were 857 or 39.3 per cent who want vocational training, but also have plans for further education other than college.

Plans only for college were shown by 505, or 14.5 per cent.

Plans for further education, but not vocational, were reported by 167 or 4.8 per cent.

There were 108 undecided.

It was explained a joint vocational school may offer high school vocational courses, post-high school training, technical training and retraining of adults in five areas — agriculture, business, distributive education (marketing, sales, etc.), home economics and trade, industrial and technical education.

In the high school program, students would remain in their home high school for sports, other courses and graduation, and would attend the joint school for vocational training.

Fire Call To Hospital Blamed On Accident

A false alarm turned in accidentally from City Hospital at 10:24 this morning caused city firemen a rush call.

The sprinkler system at the hospital was being adjusted and the workmen forgot to notify the Central Fire Station.

The system is connected directly into an alarm box at the station. When the pressure dropped, it automatically set off the alarm.

Fire Chief Charles Bryan said every unit in the station converged on the hospital, while No. 2 Station sent its truck to downtown to fill in.

Mental Health Clinic Hinges On New Levy

LISBON — Columbiana County voters will ballot on a one-tenth of a mill levy Tuesday to continue operation of the Columbiana County Mental Health Clinic, which was opened in Lisbon Nov. 15, 1963.

The tenth of a mill levy will produce an estimated $23,500, if passed, and is on the ballot for a three-year period.

The clinic is located in a two-story, well-equipped house at 339 E. Lincoln Way, with the Columbiana County Mental Health Association renting the second floor to Dr. Jakobs Knezinskis, the director.

The clinic is currently sponsored by the mental health association and receives partial financial support from the Ohio Department of Mental Hygiene. A fund drive for the clinic raised $15,000 in the 1962 campaign, but none was held in 1963, and it was decided to place the issue on the ballot for the voters.

The principal advantage of the clinic is that persons may call and make appointments for treatment with a minimum of "red tape."

There are no fees for treatment, although patients do contribute between $1 and $5 for each visit if they are able financially.

Dr. Knezinskis believes that most of the over 200 people who have been treated or are currently under treatment, would not have sought help had the county unit not been available.

The nearest other place where treatment can be obtained is Woodside Hospital in Youngstown.

The clinic represents a growing trend to provide more mental health services for more persons, utilizing advances in research and treatment.

In the race for county prosecutor, Atty. Dominick Olivito, Democrat, will be opposed by Atty. Richard L. Powell, Republican.

Republicans running for county commissioner are Andrew Miller, former Steubenville mayor, and William A. Becker of Bloomingdale, building contractor.

The Democratic candidates for commissioner are incumbent Nick Calabria of Yorkville and Atty. Michael Blischak of Toronto.

Damaged Salem Hotel Due Complete Razing

SALEM — Complete razing of the fire-damaged Metzger Hotel of E. State, where three men died in flames which swept the upper stories Thursday, is to begin when legal and business details are finished, officials announced.

A Youngstown firm has signed a contract to demolish the four - story structure, according to Atty. George Bowman, an officer of the hotel corporation. Work will probably start Thursday.

The Ohio fire marshal's office Friday ordered razing of the top two stories because of the hazard. However, the whole building will be razed, Chris Paparodis, owner, reported.

8.8-Mill Issue

Levy For Southern Local Will Aid Operating Funds

Voters in Southern Local School District will decide a proposed 8.8-mill levy in Tuesday's general election, with only a majority needed for passage.

The combined issue includes a 4.4-mill renewal and a new 4.4-mill issue for operating funds.

The measure, which would bring in some $100,000 annually, is sought by the Board of Education to provide sufficient revenue for operating the expanded district.

Officials said the district is similar to those at Leetonia, Lisbon and Columbiana, but has been operating with a tax support from 5 to 7 mills less than those districts.

In 1961 the district had 1,229 students and 50 teachers. Today it has 1,407 students with 57 teachers. Southern Local also operates 15 school buses, compared to six at Lisbon and five at Columbiana.

A Citizens' Committee formed to support the issue has urged passage in order to improve the financial basis of the district which has been operating "in the red" for over a year, Mrs. Lucille Huston, president of the committee, said.

Costs of heating, electricity, telephone service and materials have risen from $16,084 in 1962 to $23,400 in 1964, and teachers salaries have gone up from a total of $196,700 to $233,400, she said, adding the salary sched-

Levy Vote Set For Wellsville

Flood Wall Upkeep Requires Half-Mill

Just one local issue faces Wellsville voters at the general election Tuesday. It is a new half-mill flood wall levy.

The levy, if passed, will provide the necessary funds for maintenance of the flood protection system.

Under the agreement with the Army Corps of Engineer, the city is responsible for the maintenance of the dike and the pumps and motors.

The present money comes from a half-mill levy, but for the past several years, it has not provided enough funds. The flood wall is in the "red" and more money is needed to make complete repairs to the motors and pumps, officials said. The levy is for five years.

Although the new levy will suppliment the general maintenance, the primary purpose is for the needed repairs to the electrical system and pumps.

The levy, if adopted, would provide approximately $4,500 a year with a 100 per cent tax collection. A majority vote is needed.

GOP Expects 700 To Hear Gov. Smylie

Seven hundred are expected to attend the annual Columbiana County Republican dinner tonight at 6:30 at Beaver Local High School to hear an address by Gov. Robert E. Smylie of Idaho.

Final arrangements were discussed when the County Republican Advisory Council met at the Wick Hotel in Lisbon. Atty. Charles Pike of Lisbon, county chairman, said tickets still are available.

The full slate of area GOP candidates conferred with the Advisory Council Monday. Because of increased campaign activity, the council will hold a special meeting next Monday noon at the hotel, Pike said.

Madison Levy Would Fund Police Duties

A proposed new 1-mill levy for police protection in Madison Township is on the Tuesday ballot for township voters, along with proposed renewals of road and fire protection levies.

The police levy would provide over $3,000 annually for five years for salaries for two police constables who are now employed only for some court fees and mileage.

Clarence Ammon of Yeager Addition and Cy DeBolt of Route 267 are the constables.

Revenue from the eight-tenths of a mill fire protection levy is paid to the West Point volunteer fire department for protection of township homes and businesses.

It and the eight-tenths of a mill road levy are also for five years.

Both had been 1-mill levies, but were reduced following the property reappraisal.

Former Area Mailman Dies

George L. Hickey, 68, of Rocky River, a former rural mail carrier here, died Tuesday at 4 p. m. at the Lutheran Hospital in Cleveland, after a long illness.

Mr. Hickey was born here March 3, 1896, to Timothy Hickey and Julia Carney Hickey, and left about nine years ago to reside with his daughter, Miss Patricia Hickey, of Rocky River.

Midland United Fund Drive Extended In Hopes For Goal

With its goal not achieved at a final report meeting, the Midland Area United Fund Drive has been extended through next Monday, Charles Kurcina of Ohioville, campaign chairman, announced.

Kurcina said, "We can raise the goal if certain areas come through, Midland Retail, area residents, and Mackintosh - Hemphill employes." He said the drive is presently $1,000 short of meeting its goal of $59,788.

"We have $56,348 collected or pledged and with county credit of $2,462, we are still about $1,000 short," Kurcina said. The campaign is 94 per cent completed.

Kurcina said that employes of Crucible's Midland Works have spearheaded the drive with mill employes giving $3,000 more than last year while some areas are falling behind.

Two more divisions reported 100 per cent of their goals. Charles R. Schmitt of Midland, manufacturing, reported $51,773, exceeding his $51,600 goal, and Frank Meredith of Fairview, education division, reported $1,187 or 106 per cent of his $1,123 goal. Only five of 15 divisions have met their goals.

Other division standings are:

Special gifts, $130 or 100 per cent of its goal; medical-dental, $310 or 95 per cent; attorneys-funeral homes, $90 or 72 per cent; clubs and organizations, $77 or 51 per cent; public service, $476 or 100 per cent; real estate and insurance, $105 or 60 per cent; government, $294 or 90 per cent; building trades, $950 or 99 per cent; retail trade, $571.50 or 54 per cent; Midland residential, $103.10 or 27 per cent; Industry residential, $233.50 or 78 per cent; Ohioville residential, $48 or 32 per cent, and Meadowbrook residential, $57.37 or 115 per cent.

After the report meeting a regular meeting of the Midland Area Charities Board of Directors followed. Both were held Monday night at Midland High School.

Steve Trbovich of Midland, president of the board, presided. Besides hearing the campaign report by Kurcina, directors voted to pay $1,418 as Midland's share of this year's United Fund Drive costs.

Steubenville Area Brush Fire Spreads

Over 200 acres of forest and brush lands have been burned over, along with a barn and outbuildings, in a blaze which is continuing to spread about two miles north of Steubenville.

Six homes have been scorched by the fire which Ohio Division of Forestry crews, firemen and volunteers battled during the night.

The blaze is located in the Pottery Addition area, in hills just north of Route 7.

Robert McIntosh of Scio, area fire warden, and his crews along with firemen from the Pottery Addition, Pleasant Hills and other men are working on the flames, Mrs. Maureen Lawrence, fire spotter at the West Point fire tower, reported this morning.

The fire continued to burn slowly in the forenoon, but it had reached an area close to several homes. Firemen feared that a wind might create a danger and moved equipment into position to halt any flames from getting near the houses.

About 12 acres were burned off in the Brush Creek Game Preserve late Tuesday morning, near the same area where 130 acres were burned Sunday. The site is five miles northwest of Irondale.

Besides Bergholz firemen, McIntosh and Charles Heffner, state fire aide, and other state crews, plus Harry Logan of the Game Preserve, fought the fire.

Everything But The Body

In Russia, the "election" is over and the post-mortem is in progress.

But this post-mortem bears no resemblance to the kind in which the purpose is to find out what caused death. In this one, there is no body to examine.

Communist delegations visiting Moscow to learn what happened to Nikita Khrushchev, who was more popular in Italy, France, Poland, Bulgaria, Romania and Hungary than he was at home, will go home without seeing their one-time leader, dead or alive.

This piques their curiosity.

Tension in international Communism could be relieved if the former premier of the Soviet Union strolled into view and gave his version of what happened to him when the Presidium lowered the boom on his political career.

The trouble is that in Russian politics the loser never takes his fall from public glory gracefully. He does not send best wishes to the winner by telegram. He does not call in the press to make generous statements about the battle he lost and build a new frame of reference for himself.

If he is heard of again, it is in some remote place on an unimportant job. And except for the indomitable Molotov, he has nothing to say; even Molotov had nothing to say the last time he was spotted on a street in Moscow.

Hence, the mystery. Hence, the unease among satellite politicians. They liked Khrushchev. He was a devil they knew. They want to know what happened to the familiar devil because they want to know what is going to happen to them under unfamiliar devils.

But they must hold their post-mortem with no corpse — very frustrating.

For The Park Board

Among the issues which should receive support of East Liverpool voters next Tuesday is the proposal to create a new Board of Park Commissioners.

Approval would fit in well with the master plan program now under way here, opening the way for the possibility of more federal funds to assist in the development of recreational facilities. And a more comprehensive program would result.

The new plan in no way should be interpreted as a reflection on the present Thompson Park board. In fact, members of the current board are among those having endorsed the proposal along with city authorities, several civic organizations and other municipal leaders.

A new Board of Park Commissioners would become a proper part of the overall development program here.

Only a majority vote is needed for passage of the proposal. Do your part by voting "yes" on the new Board of Park Commissioners when you go to the polls.

Security By Fits And Starts

The meeting in Washington between Britain's new foreign secretary, Patrick Gordon Walker, and our government officials illustrates the hopelessness of international cooperation. If President Johnson loses the election, Mr. Walker has wasted his time coming here. Sen. Goldwater will be in the White House.

Late in 1962 at Nassau, President Kennedy met with Prime Minister Macmillan and hammered out an agreement. The Johnson-Walker meeting this week was for the purpose of hammering out what was hammered out in 1962. Mr. Macmillan isn't in power any more. Neither is his political party.

The new Labor government does not feel committed by the Macmillan agreement.

It goes for anything agreed to by President Johnson and President Kennedy.

It goes further without saying that this is the trouble inside the North Atlantic Treaty Organization as well as the trouble in American-British relations.

France is adamantly independent under President de Gaulle. West Germany, trusted by the United States, is eyed with mistrust by Britain. The prospect of organizing a mixed-manned nuclear fleet with Greeks, Turks, Netherlanders, Belgians, West Germans, Britons, Frenchmen and Americans involved, is forbidding.

Even the prospect of coming to an understanding with Britain is enough to rattle the composure of a hardened diplomat. It will be recalled that the Nassau agreement had its origin in a U.S. decision to abandon the Skybolt missile on which British defense was going to be built.

When the British declined to substitute the Hound Dog missile, the United States proposed a unified nuclear force. But the British Labor party campaigned on a proposition to denegotiate what little had been negotiated — and its narrow victory in the recent election gives it a mandate to proceed.

The Cause Of Safety

The cause of traffic safety has been advanced by the ninth annual Columbiana County Youth Traffic Safety Conference held here Monday.

Group discussions once more brought home the message on various phases of traffic control.

It is now up to the organization's new officers — with the help of adult counselors and others joined in the program —to carry this message to young drivers throughout the county the year 'round.

The faulty, thoughtless driving habits of a comparatively small percentage of youngsters have cast an unfair reflection on the many who adhere to the rules and do their part to make the highways and byways safe.

The county traffic conference can continue to serve a useful role by helping cut down the percentage of those who remain on the wrong side of the driving fence.

In One Lump

By Truman Twill

Friend of mine has a fine idea. Make a composite of everything you don't like about people and see what your prejudices look like in one lump.

My lump is a back-slapper who hates the people he patronizes.

He wears suits with loud patterns, tries to give the impression his wife is dumber that he is, which is unlikely, and pays more attention to the silly boat he hauls around than he pays to his own kids.

He uses both front names in full, instead of settling for one full name and an initial. He was graduated from a college, according to his version, but he hit his mental plateau on cheerleading and never has had a mature thought.

He is a great hand for church-going and ostentatious good works, because it is good public relations—what else?—but betrays his lack of conviction by being an eye-gouger and a bigot.

He never has admitted there is anything he doesn't know and his knowledge extends to every facet of life, plus supernatural phenomena.

He is always quoting what someone else said or referring to what someone else did, and his versions of both are 90 per cent inaccurate.

He lives in dread of what someone else is going to do to him and-or his country. In the great red scare of the '20s, he was afraid of Bolsheviks. He was afraid of William Randolph Hearst's Yellow Peril. He was afraid of Catholics, Jews and the late Sen. McCarthy's scamps in the State Department.

He is afraid of the Congolese, the Vietnamese, the Chinese, the Burmese and the police. He says the younger generation is composed of rotten kids and wishes they would straighten up and be exactly like him.

He misrepresents Supreme Court decisions with relish and needs only a whiff of mistrust to set him off in hot pursuit of whatever victim has been tapped for extermination by the social exterminators who give him his cues. Like Chief Justice Warren, as a current example.

He is a check-grabber when someone else is watching, tells dirty stories that aren't funny, boasts about driving his car at excessive speeds, extols the virtues of standing on his own feet though he is a notorious free-loader;

Wears loud ties, flashy rings, honks his nose when he blows it, has the table manners of a mongoose, douses himself with after-shave lotion, thinks everything that goes on against his will is a conspiracy, abuses waitresses, gets his hair cut every week, likes to shoot animals;

Advertises his affiliations on his coat lapel, talks about his weight with his mouth full of calories, wears super-heavy dark-rimmed glasses, chooses brown shoes to go with a blue suit, clenches wet cigars in his teeth and insists some of his best friends are people like me.

Odd Facts

The glockenspiel is a percussion musical instrument dating from medieval times. It was originally, as the German name implies, a set of bells which were struck directly, but in the 16th century the instrument was given a keyboard and came to resemble a miniature carillon. The first important composer to make use of the glockenspiel was Mozart, in his "The Magic Flute."

The sharp reduction in mortality from the diseases, pneumonia and influenza, is testimony to the great advances medical science has made in the treatment of these respiratory diseases. During the last 25 years, the death rate from these two illnesses has decreased more than 60 per cent.

Johann Sebastian Bach, one of the greatest composers of all time, was not only a prolific musician, but also a prolific father. He was married twice, his first wife bearing him seven children and his second wife 13 children. Four of his sons likewise gained fame as composers.

The only insect that produces a food that is eaten by man is the bee. We use its honey in cooking and as a sweet spread on bread. And we use the wax from the bee's nest in making such products as candles and lipsticks.

The most sparsely populated continent in the world (excepting Antarctica) is Australia, with just under three persons per square mile.

What's So New About This Problem?

Steel Prices Seen Tied To Politics

By Richard Spong

Steel is so widely used that a rise in steel prices would move the wholesale price index upwards. Steelmakers say they must raise prices soon.

Although some selective price increases have already been announced and few firms which do not make their prices public also have boosted the prices of some grades, politics calls for postponement of an industry-wide rise until after the Nov. 3 elections.

President Johnson risked an end to his marathon honeymoon with big business on Aug. 8 when he said a steel price increase would "strongly conflict with our national interest."

The President reasoned that the steel business had been getting steadily healthier, with declining costs and rising profits. He cited a 17 per cent rise in steel profits in the first half of 1964 over the like 1963 period.

STEEL MAGAZINE reports that major producers are virtually unanimous in saying that prices ought to go up. And Logan T. Johnson, president of Armco Steel Corp., seventh largest steel producer in the nation, on Oct. 13 indicated it was only a matter of time before the industry boosted prices on "some grades of plates, some grades of sheets, and bars."

American industry's appetite for steel is all but insatiable. Steel consumption this year probably will be 5 million tons greater than last year's record of an estimated 77.8 million product tons.

Never before have so many big steel consuming industries needed so much steel at the same time — auto manufacturing, construction, capital equipment, railroad carbuilding. General Motors hadn't canceled orders during the strike but has merely pushed back delivery.

Week by week steel production rises. The 2.6 million tons poured in the week ended Oct. 17 equals the May 1963 peak. Production for the first 42 weeks of 1964 is now 99.5 million tons, as against 89.1 million tons for the like 1963 period. Total ingot output of 125 million tons this year seems likely.

THE DEMAND explains why the industry is contemplating raising prices in the face of sharp foreign competition. Through July steel imports totaled 2.6 million tons (22 per cent higher than those of 1963).

Britain, for example, shipped 350,000 tons of steel in August, the highest monthly figure ever achieved. Much of the output was bound for motor manufacturers on the continent rather than the United States, but, even so, the steel Britain sells to the continent is steel the American steelmakers won't sell.

Once the greatest exporter of steel in the world — as it remains the greatest producer — the United States now runs a deficit in the ubiquitous metal.

Having virtually priced themselves out of the world market, U.S. steelmakers seem about to set off a new round of price hikes. The effect of a steel price rise would be considerably more inflationary than auto labor contracts.

ALREADY fabricators have been detected overbuying to hedge against higher prices and the threat of a steel strike early in 1965.

Impact, a business letter circulated by many banks, reports that top government economists are frankly worried that the "long months of remarkable stability in inventories may be about over."

Some industry sources give the day after the elections as the date of a steel price increase. At stake is both the industry's public image and its relationship with the administration. It was over steel that business grew fearful of the Kennedy regime.

Spain, Cuba Close Ranks

By Seymour Freidin

Francisco Franco and Fidel Castro have a protective trade partnership that is expanding all the time.

Their growing togetherness, one of the strangest in the world of power politics, adds up to stinging disdain for the U.S. economic blockade of Cuba.

Dealing with Cuba seems in Spain to be natural and desirable. The fact that Spain's aging caudillo and Cuba's bearded Communist dictator can coexist contentedly doesn't disturb officials of the Spanish regime.

Rather, they claim to see real advantages for themselves in continued economic cooperation.

They only nuisance in this package approach is the U.S. Spaniards, sparked by approved propaganda, take a dim view of how the U.S. deals with Castro. The propagandists agitated hard enough to help bring about an anti-Yankee demonstration a few weeks ago in Madrid.

That was right after the Spanish cargo ship, Sierra Arazazu, was attacked and sunk 70 miles off Cuba. Anti-Castro Cubans probably did the job in armed launches. Three of the Spanish crew members were killed; eight wounded. The news promptly sparked latent anti-U.S. feeling in Spain.

EYEWITNESSES to the controlled but ugly incident in front of the U.S. Embassy said police stopped photographers from taking pictures. But they listened tolerantly to chants of "Cuba, Si; Yankee, No."

"It's a weird combination of common interest," a veteran European diplomat from a NATO country observed.

A simplified version of this diplomat's view is that the Franco-Castro deal is a minor league version of the late lamented Nazi-Soviet pact. Spain also sees close contact with Cuba as an Hispanic legacy. Franco's regime sees Spain as the cultural motherland of all Latin America. And French President de Gaulle's failure during his visit to Latin America to influence there disturbed many Spanish leaders profoundly.

Endorsement Of Hays Is Questioned

EDITOR OF THE REVIEW:

Your editorial endorsement of Rep. Wayne L. Hays preceded by one day our receipt of his mailed (franchise exercised, of course) record of his voting in the last Congress.

It is obvious that this gentleman is a mirror image of the New Frontier — voting down the line with every money-spending scheme devised by the current practitioners of Mr. Johnson's ". . .and take it from the 'haves' and give it to the 'have nots' that need it so much" policy. Of more importance, I would like to see the money tab for legislation enacted recently as opposed to the receipts to pay for it.

Where was the "district's most active legislator" when Medicare was tacked onto the Social Security payment increase causing its defeat? He certainly made his presence known when the $7,500 increase in his pay was bantered around and nearly beaten.

THERE IS little doubt of his involvement in foreign affairs—he has received considerable publicity in this regard, including a few broadsides regarding his traveling companion to Europe a few months ago.

Granting all the things you have to say, it would appear that Mr. Hays would make a fine addition to our State Department. What committees that he is on have had any measurable influence in our Tri-State District? Can we, who are obviously falling behind the rest of the Ohio River Valley, afford the luxury of sacrificing our representation as an area in order to provide the nation with yet another expert in foreign relations?

I wholeheartedly endorse your program of reviewing and reccomending for election the candidates as you see them. I find your simultaneous selection of Mr. Hays and Mr. Taft almost unbelievable.

Such a combination of opposing views on nearly all domestic issues and policy in general cannot be realistically embraced at the same time. Surely, you must plan on retracting one of these endorsements — although the odds are very good on both of your candidates, and you will, in all liklihood "shoo-in" two winners.

Based on most of the stated reasons for your slate of candidates to date, experience is the most important thing — getting committee appointments and all —and, therefore, your elimination of the Honorable Mr. Young doesn't represent consistent thinking.

Perhaps this slight to Mr. Young can be eased by an all-out fling for the gentleman on the top rung, the kind philosopher of the left who is going to straighten out this mess of 'haves' and 'have nots', namely, Lyndon Baines Johnson.

Of course, full forgiveness will not be forthcoming unless the gentleman of Americans for Democratic Action fame (recently resigned from that outfit, I hear — wonder why?) is accorded equal backing. Reference is made of course to that great friend of labor (leaders, that is) Hubert Humphrey.

INCIDENTALLY, from what I can gather from the press and radio, those esteemed agencies of our federal bureaucracy whose job it is to know such things were really surprised at the ousting of Khruschev, and are even farther out in getting a line on what might be next within and without the Soviet Union.

Perhaps, the able leader and knowledgeable citizen from Belmont County is holding back some pretty important information from them. As one of his "constituents", I would like to start a move to allow "our man" to let these ignorant souls in Washington have enough inside information to get themselves out of this doubly - embarrassing situation. In this connection, I know whereof I speak.

I had the privilege, a few years ago, to hear Mr. Hays discuss the Cuban situation, reciting at length his experience at viewing U-2 films, "golf balls on the green" at 70,000 feet, and other sundry items. I would well imagine that he has also seen the "Berlin Wall" in one of his many trips to the "Old Country" and would, therefore, be an expert on that fascinating chapter of American history. If we had had the foresight to spend all this campaign money for a helicopter instead of unneeded posters and trivia, we might well have succeeded in getting our "expert" to Viet Nam — a risky place, granted, especially in a helicopter, but we wouldn't want our man to miss any of the scenery, would we?

AFTER-THOUGHT. Should Mr. Hays suddenly come up with a scheme such as a super-duty truck highway from Lake Erie to the Ohio River capable of handling massive truck units (currently used in open-pit mining throughout the world) that could be substituted for the boondoggle canal at two billion dollars, I might reconsider him a man interested in the Tri-State area and, therefore, worthy of further consideration. This, and or a revolutionary railroading scheme could now be given some serious thought, now that further study has been granted on the canal proposal. Come to think of it, East Liverpool and Eastern Ohio might then come to benefit more than Rochester and Western Pennsylvania. Certainly, it's worth a thought.

I regret the necessity of making this letter so long, but would really regret leaving any of it out. I remain a faithful reader, an occasional critic and an individual broad enough to see merit in at least three Democratic candidates (countywide).

'Keep Johnson In The White House'

EDITOR OF THE REVIEW:

In answer to Mr. Hoffman's letter and in regards to advising the slavers to vote for Goldwater and Miller in order to keep us from becoming slaves under the communist rule, I ask how ridiculous can some people get.

In the first place there has been several changes in the Russian leadership since Stalin died, as there will be in the future. As far as their treaties with our country and others is concerned, they never have lived up to any of them when they found it was no longer to their advantage. This has been no secret to our government officials or to the officials of other countries, nor have their policies changed to any marked degree because of a change in leadership within their country. Still you don't go to war because of broken treaties with a country that you knew would hardly live up to them when said treaty was made, unless attacked by that country.

Now I believe that there is room in this world for all people to live in peace together and that if the people within a country allow themselves to become slaves to a handful of degenerate gangsters that has secured the control of the government, then they are to blame for their ordeal, and it should be their responsibility to change it if they want it changed. Mr. Hoffman is asking that we elect Goldwater in order to start a nuclear war to free the enslaved Russian people. That is exactly what may happen, if a man of his irresponsibility is ever put in the White House.

In my estimation, Mr. Goldwater would make the poorest excuse of a president that our country ever had. He has been against every forward movement in Congress that is for the benefit of the common working man and that would help keep our country strong in the future. In no time at all the country would be in a worse depression than in the 1930's, the reason being that your industries, manufacturing plants, people in all walks of life would have no confidence in our government and would be afraid to continue expanding or spending money for research, etc.

The result would be that practically every thing would come to a standstill. There certainly must be something to the above statement when the management of Big Business which usually supports the Republican candidate has come out this year in favor of Mr. Johnson as well as several of your oldline newspapers that had supported all Republican candidates in the past.

No, Mr. Hoffman, you are using the theme of Mr. Goldwater in trying to scare the rank and file of our countries' voters. He is so desperate and will do and say anything for votes, (which he did in securing the nomination) that I'm sure the American people are not as gullible as he thinks they are, and that in order to keep our country safe, free and the economy strong they will keep Mr. Johnson in the White House.

Motorist, 43, Fined $100 In Hit-Skip Case

Russell George Sendling, 43, of Shadyside Ave., whose auto allegedly struck a bicycle carrying three boys Oct. 17 on the East Liverpool-Wellsville "super-road," was fined $100 and costs and given a suspended 30-day County Jail term today by Municipal Judge Samuel M. Chertoff.

Sendling, represented by Atty. George A. Aronson, entered a "no contest" plea, which admits the facts and places the defendant on the mercy of the court.

John Zogran, 13, of Mount Oliver, Pittsburgh, was hospitalized after the crash. His companions, Edwin Ayres, 12, and Mark Ayres, 11, were treated at City Hospital and released.

The State Highway Patrol's report said the Zogran boy was hurled against the windshield of the car and then fell onto the highway.

Sendling contended in his court appearance today that he thought his auto had struck a rock. He said he stopped momentarily, but he conceded he did not comply with the state law that requires a driver involved in a crash to identify himself, offer assistance to the injured and so forth.

The judge pointed out the testimony showed that Sendling's wife telephoned police and reported her husband's car was involved in the crash. It was that fact, the judge commented, that led him to decide to suspend the jail sentence.

"I realize these three boys were runaways and the bicycle was stolen, but that does not mean they are not entitled to be treated as human beings," the judge told Sendling. Failure to stop after an accident is "one of the worst and most despicable acts a driver can commit," he added.

In the Sophomore Class election, Mike Baxter of the "White" party was named president; Susan Greenwood, "Blue," vice president; Ann McDowell, "Blue," secretary, and Rosemary Finney, "Blue," treasurer.

The classes held primaries last week to select the nominees, and the Student Council supervised the election, following Ohio election laws and the machinery of the County Board of Elections.

Dinner Held At Wellsville

40 At Fete For Retired Firemen

More than 40 attended a dinner held Tuesday night by the Wellsville volunteer fire department in honor of two members who have retired.

Earl (Goose) Mundy of 14th St., left, and Carl (Drummy) Drummond of Main St., center, are shown being congratulated for their service by Tom Lanam, department president.

The two have a total of 39 years service between them. They were presented trophies from the department in recognition of their work.

Both have served as president. Mundy, supervisor of custodians and maintenance for the Wellsville public schools, joined the department in 1946.

Drummond, an employe of the Pennsylvania Railroad Co., joined in 1943. He was active in the department's drum and bugle corps several years ago.

Donald Miller was master of ceremonies for the event at the Central Methodist Church, and with Jim Russell was co - chairmen of the dinner.

The Rev. Richard O. Maurer gave the invocation.

Speaking briefly were Herman Heiney, Roy Fiber, Charles Leatherberry, Tom Gualtier, Ed Bettis, Fire Chief Robert Lewis and Clarence (Kuter) McFall, the oldest former fireman present.

Lewis said "it is men like Goose and Drummy who made the department what it is today." The others related humorous incidents.

A film of Wellsville taken in 1936 was screened by Harry Excell.

LISBON — A five session dairy farm management short course will be conducted for area dairymen beginning on Nov. 10 at Salem High School, according to Don Myers, county extension agent in agriculture. Each class will start at 8 p.m.

Farm management is concerned with decisions on combining land, labor and capital. The course deals with the management phase. Topics to be covered will include labor management, capital management, economics of producing and purchasing feeds and economics of milk production.

Specialists from the Agricultural College at Ohio State University will conduct the sessions. Producers desiring to enroll should contact either the Columbiana or Manoning County Extension Office, Myers said.

Signs Warn Of Rules At Lisbon Area Dump

LISBON — The Center Township Board of Trustees announced today signs have been placed at the Center Township-Lisbon dump prohibiting any person from salvaging refuse at the site and banning the discharge of firearms in and around the area.

The action was considered necessary as the dump caretaker has the exclusive right to any salvage, the trustees said. There has been so much malicious destruction of property and dangerous firing of weapons around the dump and through the buildings that the practice will have to stop, they added.

The Center Township constable will patrol the area and violators will be prosecuted, the trustees said.

LISBON — Clark E. Maruca, 43, of Minerva was fined $100 and costs and his driver's license was suspended for six months when he appeared Tuesday before County Judge James L. MacDonald on a charge of leaving the scene of an accident.

Maruca pleaded "no contest." He also was fined $20 and costs on a charge of failure to yield the right-of-way.

The other State Highway Patrol cases, Betty M. Chance, 35, of East Rochester was fined $5 and costs for failing to yield the right-of-way and James H. McCaskey, 20, of R. D. 3 and Marvin Linder of Salem were fined $10 and costs each for speeding.

$23.7 Million Budget OK'd By Lutheran Church

COLUMBUS, Ohio (AP)—The American Lutheran Church has approved a $23,750,000 budget for 1965, a 4.1 per cent boost over the 1964 budget.

The action came Tuesday as the church wound up its general convention here by approving an expanded program to start new congregations throughout the United States and by adopting pension plan changes which extend major medical benefits to retired clergy and lay workers, their widows and dependents.

The ALC's Board of Pensions said the new coverage for retirees will be the same as provided for active personnel except that it will have a $500 yearly maximum benefit and a total maximum benefit of $2,500 per person.

The convention instructed the ALC's Boards of American Missions and Trustees to seek more funds for the investment and loan fund to establish a much larger number of mission congregations within the next two years.

Unlike good wine, prescription medicine usually does not improve with age.

"Handle carefully" should be the slogan when dealing with old medicine. Or to be completely safe, you are well advised to dispose of old medicine and consult your doctor before having the prescription refilled.

Fairfield-Waterford School District Awaits Bond Vote

MIDDLETON — A $350,000 bond issue for a school improvement program in the Fairfield-Waterford District and a combination new and renewal operating levy will be voted on in Tuesday's general election.

The bond issue calls for financing at 1.9 mills for 23 years and if approved, would provide for improvements and enlargements at the New Waterford and Fairfield elementary schools and the Crestview High School.

Some $217,900 would be spent on razing the old part of the New Waterford school, rebuilt in 1899 after a fire, and addition of six classrooms and a cafeteria plus installation of a gas-fired hot water heating system to replace the present hot air system.

About $89,500 would be spent for an enlarged shop along with a stage and music room at the high school.

Some $42,585 would be used for replacing the heating system at Fairfield School with a modern gas - fired hot water plant.

The proposed 4-mill levy represents a renewal of a 3.6-mill levy plus a new four-tenths of a mill issue. The original levy had been 4 mills but was reduced as a result of the reappraisal of property.

There are some 1,043 students in the district, and 40 teachers.

The current valuation is $13,454,000, up from the $11.2 million of 1959.

ule remains the lowest in Columbiana County.

Because of the financial crisis, the district is operating without a school nurse, a speech and hearing therapist, and assistant band director or vocal music instructor in the grade schools.

A new mathematics system recommended for the lower grades is not being used because of the cost, Mrs. Huston said.

If the levy fails, the district will be $80,000 in debt by the end of 1965. Faced with such financial problems, the district could be declared bankrupt, Mrs. Huston reported, and divided with taxpayer still required to pay the bonded indebtedness and assume tuition costs at schools to which the youngsters would be sent by the state.

The Southern Local District is paying less in school taxes than other districts in the county, Mrs. Huston said—19.4 mills compared to Salem's 28.5 mills.

"The district is not asking for frills or fancy programs, just necessary money to provide a sound education for our children," she said.

Mrs. Hilton was cited to appear before Mayor William Daugherty for allowing a fire to get out of control and not taking proper precautions.

The annual sale of Girl Scout calendars will begin Monday in the Midland area with members of Girl Scout and Brownie Troops of the district participating. The sale will continue through Dec. 1, Mrs. Denver Honaker of Midland Heights, chairman, said.

The sale is one of two projects conducted by the girls throughout the year.

Members of Junior Girl Scout Troop 70 and Brownie Troop 97 went on a hike at Indian Point, near the Sunrise Hills area, in Industry Saturday afternoon.

John Morura, Terry Ordich and Billy Selepic, Boy Scouts, were guides and Miss Bonnie Butz, a student nurse, was chaperone. Senior aides included Mary D'Alesio and Pat Wasley.

Miss Thelma Dawson, Mrs. Matt Ordich and Miss Ernestine Johnson are leaders of Troop 70 and Mrs. William Selepic, Mrs. Ivan Francis and Mrs. David Williams of Troop 97.

Members of the Junior Troop will hold a Halloween party Thursday afternoon in the Girl Scout room at the Midland High School gymnasium.

Brownie Troop 167 held a Halloween party Monday evening in the Girl Scout room. Games were enjoyed and refreshments were served.

Senior aides were Mary Schulte, Debbie Smith and Andrea Wuchina. Leaders include Mrs. Patsy Castellano, Mrs. Milan Prodonovich and Mrs. Rocco Orlando.

ELHS Concert Choir Gives Program For Rotary Group

Greater in number than last year, but seemingly the epitome of perfection in harmonious balance, the East Liverpool High School Concert Choir presented a half-hour program at the Rotary Club's noon luncheon meeting Tuesday in the Travelers Hotel, appearing for about the third consecutive year.

Five rows of scrubbed faces and trained voices — 118 singers in all — blended in a smooth and mellow harmony under the direction of Robert Shankovich, a veteran choirmaster who is new in the city school system this year.

Shankovich gestured and coaxed the large group of blue and white robed singers through five numbers, the highlight "Fa Una Canzona," an Italian madrigal of the 16th Century in which the diction of hard-to - pronounce words rang clear.

The program opened with "The Lord Bless You and Keep You," and other numbers were "Give Me Your Tired, Your Poor," an Irving Berlin composition with lyrics based on the inscription on the Statue of Liberty, "Shalom," from the Broadway musical, "Milk and Honey," and the ELHS Alma Mater.

Shankovich explained the choir is "early in the development of new techniques, but will be a superior choir" with added practice.

The "Melodettes," a dozen girls who wear black dresses and white pearl necklaces, sang "No Man Is an Island" and "Bye, Bye Blues," the latter a bouncy number that seemed to fit their style.

Shankovich has taught in Baltimore County, Md., and in Pennsylvania, and before coming here to succeed Miss Arletta Helfrich taught five years at Har-Brack High School, Natrona Heights.

Barbara Hall, senior, and Valerie Wolfe, junior, are accompanists.

The new choir director was introduced by Principal Carl F. Pelini, program chairman. E. R. Chandler, vice president, presided in the absence of Alvin T. Babb, president.

Guests included Jack Pozenel of the Lisbon Rotary Club, and Jack O'Donnell, Municipal Judge Samuel M. Chertoff and Daniel Cooper.

New Cruiser Arrives For Wellsville Police

One of Wellsville's two new police cruisers has arrived and should be placed in service Thursday.

Safety-Service Director Fred Baldasare said today the 1965 vehicle was being equipped at the Bob White Ford garage. White was the low bidder, offering two cruisers for $4,447.20.

The spot lights, red flashing dome light on the top and the radio equipment must be installed at the garage. The other cruiser should arrive any day, the director said.

Both are black and white. They replace two old vehicles now in service. The new cruisers are heavy - duty vehicles, constructed specially for police work.

Gas Movie Screened For Chester Kiwanis

Thomas Ridge screened a Columbia Gas System film, "Energy on the Move," at a meeting of the Chester Kiwanis Club Tuesday night at City Hall auditorium.

Further plans were made for the club's annual pancake supper slated Nov. 4-5 at the auditorium. Twenty-three members attended.

The next meeting will be Tuesday night.

100 At Annual Dinner Of Weirton Hospital

WEIRTON — About 100 attended the annual dinner meeting of the medical and dental staff and the Board of Trustees of Weirton General Hospital Tuesday night in the hospital diningroom.

Larman S. Sherwood, humorist and educator, who has been blind since birth, spoke on "Meeting Our Challenges."

E. A. Ross, president of the board, presided.

At the time of the crash, the officer pointed out the street "was very narrow and there was not sufficient room to avoid a collision with the pole." He said there was an excavation at the side of the pavement, made by a contractor rebuilding the street, and reinforcing material also was piled at the side of the thoroughfare.

Gordon stole a car belonging to Jerry D. Lovejoy of Midland last month and wrecked it in the vicinity of Cooks Ferry. He also was ordered to make restitution in the amount of $2,300 at a rate of $100 per month.

Irish Picked To Sink Navy; Bucks Choice Over Iowa

By HAROLD CLAASSEN
Associated Press Sports Writer

TOKYO (AP) — If you dig a hole from Tokyo right through the earth you will come out on the 50-yard line of Philadelphia Stadium, where Navy and unbeaten Notre Dame meet in their annual football soiree on Saturday.

Here are this week's picks:

Notre Dame over Navy: The Irish have a defense that will keep Roger Staubach in check long enough for John Huarte and Jack Snow to get their aerial circus into action.

Georgia Tech over Duke: The Blue Devils' victory string ends on their home grounds.

Ohio State over Iowa: The Buckeye line yields ground grudgingly while their Willard Sander picks it up in big chunks.

Southern California over Washington: The Huskies are the West Coast's biggest disappointment.

Texas over Southern Methodist: The Longhorn halfback corps is big, lean, hard and speedy. In addition, Jimmy Hudson is becoming a top-flight quarterback.

Michigan over Northwestern: Michigan's line problems have evaporated.

Alabama over Mississippi State: Alabama has a trio of first rate quarterbacks in Joe Namath, Steve Sloan and Wayne Trimble.

Nebraska over Missouri: In all probability, the Big Eight title goes to the winner.

Louisiana State over Mississippi: The home field gives LSU a tiny edge.

California over UCLA: Craig Morton is one of the season's best passers.

Florida over Auburn: A tight squeeze.

Skipping over the others:

Friday NIGHT

Miami of Florida over Detroit.

Saturday

East-Army over Iowa State, Princeton over Brown, Buffalo over Delaware, Colgate over Lehigh, Columbia over Cornell, Harvard over Penn, Holy Cross over Richmond, Penn State over Maryland, Rutgers over Boston University, Syracuse over Pittsburgh, Villanova over Xavier, Dartmouth over Yale.

District Card Opens Thursday With Tigers At JU

Potters, Palestine Tied For First; Metzgar Leads Scorers

Hoping to nudge into second place in the Buckeye Border Conference, Wellsville High's Tigers swing into action against winless Jefferson Union Thursday night, a day earlier than the rest of the district teams.

Friday action for Jefferson County teams has been eliminated this week because of a teacher's conference so Coach Ken Woods sends his Tigers to JU on Thursday night.

Wellsville, with a 1-1 record in conference competition, could finish at least second in bagging victories over JU and Springfield and Beaver Local in succeeding weeks.

Toronto, once - beaten overall, lists a perfect 3-0 record in the Buckeye conference with only one game remaining in the league — against Beaver Local —and the Red Knights rule a heavy favorite in this one slated on Nov. 7. Toronto is defending champion.

—:—

WELLSVILLE'S highly - touted sophomore fullback Chris Thornton may hit 1,000 yards gained for the season with a good game against Jefferson Union, but it would take one of his best.

Thornton to date has rolled up 721 yards rushing in 110 carries, needing only 279 in three remaining games to hit 1,000. In scoring, he shows eight touchdowns for 48 points, still a good many away from the school record of 90.

Coach Norm Allison's Yellow Jackets are winless in seven games, while Wellsville is 2-5 for the year. In the opener, Mingo beat JU, 30-6, and two weeks ago Mingo beat Wellsville, 24-0. Despite their record, the Yellow Jackets may give Wellsville a strong test.

—:—

GENE METZGAR of United, by scoring 14 points against Crestview last week, maintained his points lead. Metzgar now has 58 while Mel VanFossan of Leetonia is second with 58. East Liverpool's Denny Burke moved into third place with 54 points.

Meanwhile, East Liverpool moved into a tie with East Palestine to share the No. spot after the Potters came on strong in the fourth quarter to defeat Martins Ferry, 26-18.

Both the Potters and the Bulldogs have identical records of 5-1-1. East Palestine and Minerva battled to a tie last week.

East Liverpool is favored to win its sixth game of the season on a visit to Weirton Friday night. East Palestine will play host to Poland.

—:—

OAK GLEN, after two successive setbacks will attempt to get back on the winning track against visiting Fairmont West.

Another victory streak in the district is at Midland where Coach Joe Cochran has brought his team along to win its last three games. New Brighton always has been a jinx to Midland but the Leopards may break this hold Friday night in a road game.

One team closes its season Friday. South Side will make its final grid appearance of the campaign visiting Northwestern. Coach Fred Milanovich has seen his team win one game, the opener, while losing the last six.

In other Tri - County action Friday, the powerful Leopards of Louisville visit Columbiana while Leetonia and Lisbon hook up in their annual battle.

—:—

SALEM, which will be East Liverpool's opponent next week visits Boardman.

In Saturday games, Stanton Local with one of the longest winning streaks in the district, plays an afternoon game at Brilliant.

The Red Raiders have won their last four games while losing the first two.

Rivals Beaver Local and Southern Local square off Saturday night at Southern where Coach Ed Stevens must come up with a quarterback.

Beaver Local's No. 1 quarterback Norm Gaydos and his replacement Jeff Lane were injured in last week's game with Carrollton and are through for the season.

United goes after its fourth win in eight starts playing host to West Branch Saturday afternoon while Crestview travels to Western Reserve.

Browns Revise Game Plan To Halt Steelers' Johnson

CLEVELAND (AP) — The Cleveland Browns have revised their battle plans to stop John Henry Johnson, the big Pittsburgh fullback. And for good reasons.

John Henry scored three touchdowns, rushed for 200 yards, and led the Steelers to a 23-7 victory over the Browns here Oct. 10—the only loss for the Browns this season in the National Football League. Also, it was the largest chunk of yardage by any NFL back this season against the Browns.

"For one thing we'll change our tactics some," said Browns' defensive coach Nick Skorich. "They were double teaming our ends to open things up. We have to do something about that.

"And I think you'll see a change in attitude. There seemed to be a feeling the last time that we had the Steelers beat without even playing them.

"Now we know how good they can be. There certainly isn't any reason for complacency."

Since losing to Pittsburgh, the Browns have won two straight and lead the Eastern Division with a 5-1-1 record. The Steelers have lost the last two since beating the Browns and could be ready to bounce back.

Pilgrim Wins, Misses Record In 3-Way Meet

Jon Pilgrim finished first but the Potter cross - country team was last in a triangular meet Tuesday at Aliquippa.

Cannon McMillan won team honors with 33 points while Hopewell was second with 43, a point in front of East Liverpool.

Pilgrim ran his best race of the season, covering the 2½ mile course in an amazing time of 10 minutes and 40.6 seconds to take first.

His time was less than a second off the record. The course represents the official course used for the WPIAL District meet. The course record is 10 minutes and 40 seconds.

Others placing for East Liverpool were Joe Golden, 8th, Joe Massey 9th, Bill Loy 12th and Gregg Manning 14th.

East Liverpool runs in the district meet at St. Clairsville Saturday.

NCAA-AAU Fight Resumes Following Olympic Truce

By BOB GREEN
Associated Press Sports Writer

NEW YORK (AP) — The skirmishing has started and the first major shot is expected next week, now that the Olympics have ended, an end that also terminated the AAU-NCAA truce so carefully forged by the late Gen. Douglas MacArthur.

"There are no more rules," an NCAA spokesman told The Associated Press Tuesday, "not unless the government steps in again. I think it's safe to say that something more than talk is going to happen."

At stake in the fight, which was recessed after the late President Kennedy asked Gen. MacArthur to step in, is control of amateur athletics in this country.

The major participants are the Amateur Athletic Union and the various sports federations fostered by the National Collegiate Athletic Association. The federations cover track and field, gymnastics, basketball and wrestling.

"The track and field federation is the one," the NCAA source said. "The gymnasts, the wrestlers pretty much go their own way. The AAU isn't concerned. Basketball becomes an issue only in an Olympic year."

"So the track and field federation will be the first to test its strength, a test that undoubtedly will come at the start of the indoor season.

"The NCAA Council is meeting this weekend. They undoubtedly will formulate and publish a policy. The NCAA members want a policy, a guideline, something to stand on. This policy should be newsworthy."

It works like this:

The AAU holds the international franchises for sanctioning of amateur sports in this country. The NCAA, which represents the nation's colleges and their athletes, feels it should have a greater voice in the administration and sanctioning of their athletes in international competition.

That, essentially, is what the fight is all about.

Curt Flood And Family Given Warm Welcome

By LYLE W. PRICE

ALAMO, Calif. (AP) — Negro baseball star Curt Flood and his family settled into their leased $35,000 house today after a warm greeting from their white neighbors instead of the loaded shotgun they had been warned to expect.

The St. Louis Cardinals center fielder was all smiles. His pregnant wife wept for joy.

"We think it's so fine you are here," said Mrs. Joseph Cone of Alamo, located 15 miles east of Oakland, Calif., as the Floods moved in Tuesday with the aid of a court order. "Especially since you have four children. We live just around the corner."

"I don't see anything wrong with them," said Mrs. Dan Sweeney. "My kids are thrilled. They hope he'll teach them to play baseball better."

The welcomes and a waiting, fully prepared meal reduced Flood's wife, Beverly, 25, to tears.

"I'm all choked up. We wanted a country atmosphere, a place where our kids could expand. When we saw this house, we knew it was what we wanted," Mrs. Flood said.

Flood is a native of the area and was graduated from Oakland Technical School. His wife is from St. Louis.

Moving day for the Floods included assistance from a locksmith and the sheriff of Contra Costa County.

The sheriff and 11 deputies searched the home, presumably to see if it was safe, before Flood and his wife moved in. The locksmith opened the locked house by drilling a hole in a back door, then changed all the locks for the Floods.

The Floods planned to stay with their children, Debbie, 7; Gary, 6; Curtis Jr., 4, and Shelley, 3, in an Oakland motel until their furniture arrives and utilities are turned on.

Flood, 26, obtained a temporary court restraining order Monday to be able to occupy the three-bedroom ranch-style house at Alamo, a quiet suburb of 1,791 persons.

The Floods' attorney said in a suit that George Finn and an unnamed man had brandished shotguns at the home Saturday night and told Phyllis Schofield, a real estate agent, that they would shoot any Negroes who tried to move into the neighborhood.

Arfons Regains Car Speed Title With 536 M.P.H.

BONNEVILLE SALT FLATS, Utah (AP) — Art Arfons was again the fastest man on wheels today—a title he earned once before this month, but was able to hold only eight days.

Reaching speeds he estimated in excess of 600 miles per hour Tuesday, Arfons rocketed to a record average 536.71 miles per hour in a two-way run through a measured mile on the salt flats.

The Akron, Ohio, garage owner now has his sights set on a record of 650 miles per hour, and then—the speed of sound.

"But until I know a little more about the speed of sound and what happens, I'm not going to try," the 38-year-old racer said.

"I know I can go 650 safely, and that's the goal for next time."

Arfons' performance Tuesday marked the fifth time this year a land speed record was broken here.

A car designed by Arfons' brother, Walt, The Wingfoot Express, traveled 413.20 m.p.h. Oct. 2. It was driven by Tom Green, Wheaton, Ill.

Art Arfons, in the 17,000 horsepower Green Monster racer he used to set the record Tuesday, was next on the books Oct. 5, with a time of 434.02 m.p.h.

Craig Breedlove of Los Angeles, who set the land speed record last year at 407.45 m.p.h. returned with his three-wheeled Spirit of America Oct. 13 to travel a record average 468.72 m.p.h.

Not satisfied, he pushed for a mark in excess of 500 m.p.h. two days later, and made it.

Wittenberg Tops Poll In Fifth Week

By The Associated Press

The Wittenberg University Tigers topped The Associated Press small college football poll today for the fifth straight week.

The unbeaten Tigers whipped Denison 40-14 last Saturday for their sixth straight victory and topped the voting by The AP panel of 15 sports writers and broadcasters with 129 points. They received seven first-place votes, four seconds, two thirds, one seventh and one eighth.

Prairie View of Texas continued its upward climb with two victories and nosed out Florida A&M for the No. 2 spot in the Top Ten with 95 points to 92 for the Rattlers. A week ago Monday Prairie View defeated Wiley and on Saturday demolished Arkansas AM&N 31-13. Florida A&M edged Tennessee State 22-20.

Texas A&I jumped from seventh to fourth after a 13-12 triumph over Lamar Tech while Youngstown moved up from eighth into a tie for fifth with Louisiana Tech. Youngstown downed Baldwin Wallace 26-6 while Louisiana Tech beat Northwestern Louisiana 16-7.

Rounding out the Top Ten are San Diego State, No. 7, followed by Susquehanna, Los Angeles State and Massachusetts and Minnesota Concordia, the last two tied for 10th.

Fight Results

LONDON—Bill Nielsen, 202¼, Omaha, Neb., won on disqualification from Johnny Prescott, 197, England, 8.

NEW YORK—George Cahill, 171, New York, stopped Stan Mitchell, 175, New York, 2.

HOUSTON—Manuel Gonzalez, 152, Houston, stopped Peter Schmidt, 151, Toronto, 8.

NORTH DARTMOUTH, Mass.—Brad Silas, 144, Washington, D.C., outpointed Dick French, 145, Providence, R.I., 10.

Hunters Get Turkey

Dr. Howard E. Matthew of Louisiana Ave., and Thomas Wehner of Pyramus St., Chester, and Crawford Haynes of Newell returned Saturday from a hunting trip to Moorefield, W. Va., when Dr. Matthew bagged a 12-pound turkey.

Browns Are Last In Most Depts.

NEW YORK (AP) — Ninth in team offense and last in team defense.

Those aren't terribly impressive credentials but they don't bother the Cleveland Browns. As long as they're first in the National Football League's Eastern Division, they couldn't care less.

The Browns, who took undisputed possession of the lead after whipping New York 42-20 last Sunday, also are last in ball control plays. So how come they're leading their division?

For one thing they've scored more points than anybody else in the league except Baltimore and points, not statistics, win ball games.

If the Browns had to depend on the statistics, they'd be in trouble. Their 2,462 yards allowed is almost 200 yards more than any other club has surrendered. Their 1,971 yards gained leads only five other NFL clubs.

Cleveland has run only 381 ball control plays on offense, the fewest for any team in the league. Ball control plays are described as pass attempts and rushes. Punts and field goals—plays where the ball is voluntarily surrendered—are not included.

The Browns have scored 184 points, second only to the Colts' 237.

Baltimore leads the Western Division.

Young Assails Taft In Talks To Students

CLEVELAND (AP) — U. S. Sen. Stephen M. Young (D-Ohio) told student groups at Fenn College and John Carroll University Tuesday that Rep. Robert Taft Jr., is "trying to carry water on both shoulders" by posing as a moderate in northern Ohio and as a "Goldwater extremist" in southern Ohio. "But if you look closely that's Goldwater he's carrying," the senator added.

Taft, Ohio Congressman - at-large, is the Republican nominee for U.S. Senator, opposing Young's re-election bid.

Trojan Star Is Selected Back Of Week

By TED MEIER
Associated Press Sports Writer

Craig Fertig, quarterback for the University of Southern California Trojans, was named Back of the Week today by The Associated Press.

Fertig threw four touchdown passes and over-all completed 21 of 28 passes for 371 yards in a 26-21 victory over California last Saturday as the Trojans bounced back from their defeat at the hands of Ohio State the previous week.

In the last two minutes of play Fertig completed six straight passes for 95 yards, the last for 22 yards and the winning TD. In addition he averaged 37.6 yards on punts.

Bill Wolski, Notre Dame halfback; Jim Grabowski, Illinois fullback and Bob Schweickert, Virginia Tech quarterback, were high up in the weekly voting by sports writers and broadcasters.

Wolski rushed 18 times for 102 yards and scored three touchdowns as the Irish beat Stanford. One of his TD's was a 54-yard pass from John Huarte.

Grabowski also scored three touchdowns on runs of 33, nine and four yards. Altogether he rushed 171 yards on 27 carries against UCLA. This was the most Illini rushing yardage in one game since Abe Woodson's 181 against Minnesota eight years ago.

Schweickert scored two of Tech's touchdowns in an upset of Florida State. In addition he passed for the third touchdown and punted eight times for a 47.4-yard average to keep the Seminoles penned in their own territory much of the time.

The Los Angeles Angels capitalized on two pinch-hit home runs this year. Jim Fregosi hit one on May 6th to beat Minnesota and Tom Satrinao hit one in New York on Sept. 16 to beat the Yankees.

Unitas Credits Line For Success Of Colts

By GEORGE BOWEN
Associated Press Sports Writer

BALTIMORE (AP) — "Here's John Unitas, the greatest quarterback in National Football League history," was the introduction by Coach Don Shula at a luncheon in honor of the Baltimore Colts.

"Coach, you got some nerve," said Unitas.

The reaction has been typical of the outspoken Unitas to the praise being lavished on him once again now that the Baltimore Colts are riding high. At the same luncheon, he referred to some backslappers as "front runners."

Unitas is being toasted because the Colts have crossed the goal line 31 times in winning six out of seven games to lead the Western Conference. He can recall last season when they scored only 35 touchdowns in 14 games and there were boos.

"Our offensive line took a lot of abuse unnecessarily," says Unitas. "I never thought the line was over the hill, although a lot of people did. They are now getting some well deserved recognition."

If anything was to blame, it was lack of a running attack.

"Consequently we had to throw 75 to 80 per cent of the time," Unitas explains. "If you have only one offensive phase, a passing attack, then the defense can blow in on the offensive line and they have to break down a couple of times during a game."

Unitas squelches any idea that the Colts have found something or somebody new that suddenly turned them into a high scoring outfit.

West Takes Early Lead

NEW YORK (AP) — All those old familiar names are there in the National Basketball Association scoring statistics released by the league today. All of them but one.

You can't help noticing the absence of Wilt Chamberlain's name though. The 7-foot-1 San Francisco star hasn't played any games this season because of a stomach disorder.

Wilt's illness has left the field wide open for the rest of the NBA shooters. And they'll need as big a lead as they can get because Chamberlain is expected to return to action this weekend.

While the Warrior star was convalescing, Jerry West jumped off in front in scoring with 122 points for a 30.5 average. Baltimore's Bailey Howell is second with 116 and a 23.2 average. Figures include games through Monday.

Tennessee Guard Cited Top Lineman

By ESCAR THOMPSON
Associated Press Writer

KNOXVILLE, Tenn. (AP) — "I didn't really think I had played too well until I studied the game films. And then I realized I had played the best game of my career."

That's what Steve Delong, Tennessee guard, said about his defensive play against LSU — a performance that helped the underdog Vols tie LSU 3-3 and win for Delong the nod as Associated Press Lineman of the Week.

"This certainly is an honor and I'm grateful for it, but I feel that it should go to our entire defensive line," said Delong, 245-pound, 6-foot-3 guard from Norfolk, Va. "Our whole team was up for the game and that helped my play."

Coach Doug Dickey agreed with Delong that his play against LSU was the best of the season — a year in which the Volunteers are using a stout defense to try to bounce back as a football power.

"Steve certainly is deserving of the honor," Dickey said. "The fact that he is a great football player is general knowledge. But as far as the coaching staff is concerned, his work as captain has been almost as valuable as the strength he has given us on defense."

Bowling Green Takes Over As No. 1 Rusher

NEW YORK (AP) — Notre Dame has charged up to challenge Tulsa in total offense and Bowling Green has taken over the rushing leadership in major college football.

Tulsa retained its three-way hold on three offensive departments — the Hurricane also leads in passing and scoring — but faced a threat from the Irish.

Notre Dame, amassing 315 yards in the air against Stanford last Saturday, moved from eighth place to the runner-up spot with an average of 393.6 yards gained a game. Tulsa leads with 459.6, according to NCAA service bureau statistics released today.

Tulsa leads in passing with a 295.6 pick up a game and is first in scoring with 39.4 points a game. Iowa is second in passing at 258.2 with Utah State the scoring runner-up at 38.7.

Bowling Green, meanwhile, capped a steady climb to overtake Nebraska for rushing leadership. The Falcons lead with a 271.2 average to 256.7 for the Cornhuskers.

Barron Names Myles As State Fire Marshal

CHARLESTON, W. Va. (AP) — Gov. W. W. Barron has appointed Lewis E. Myles of Bluefield to replace State Fire Marshal Richard Kyle, who resigned Monday night.

Kyle submitted his resignation on the heels of a charge by Republican gubernatorial candidate Cecil Underwood that Kyle used his influence while an assistant to Barron to obtain state work for a private contractor.

While denying the charge, Kyle said he was resigning "to clear my name. I cannot give attention to anything else until this matter has been settled."

Myles had been an assistant state fire marshal under Kyle.

In Business Office, For Example

The Typical Indoor Bore

By HAL BOYLE

NEW YORK (AP)—Bores are where you find them.

The cocktail party is supposed to be the natural habitat of the bore in the United States, but he proliferates in other places, too—the average business office, for example.

If you look around your own office you may find typical the following indoor bores that make up part of the curse of the working class:

Harry Hoary—Old Harry has been with the company 99 years or so and remembers when he had to ride to work by horseback and fight bears on the way. Harry has kept his jaws so busy telling how tough life was in the old days that he hasn't got around to doing his job since 1947, the year of the big snow.

Perry Parasite — This touring termite circles the office all day stealing whatever he needs — from paper clips to ideas. Whatever he needs to help him get by, he takes from others. He would rather purloin a pencil off your desk than go sharpen one himself. In any decent civilization Perry would be behind bars as a petty larcenist.

Basil Bigears — After Basil was rejected by the CIA, he became the self-appointed office spy. He hangs around the men's washroom and whenever one of the hired hands denounces management because of the poor quality of the paper towels, he runs to the personnel director and informs.

Glorene Heller — This twitchy little dame thinks of herself as a femme fatale. She can't keep her mind on the job, or her hands off the boys. Whenever one of the married men dictates a letter to her, he has an uneasy feeling he is about to be caught in a love nest. But after six months she elopes with a plumber.

J. Morgan Gasser—J. Morgan is a junior executive who has decided honey catches more flies than vinegar—and so does banana oil. His weapon is praise. But instead of making himself popular, J. Morgan is regarded as the biggest creep in the place. Because everyone knows he couldn't be as good as J. Morgan says he is.

Andy Handy—Andy is a hobbyist bore who wants you to share his joy. One week he collects old lampposts, the next week he is learning to make hooked rugs with his teeth. "You can do it, too—it's easy," he says.

Samuel Stonehart — "Chuckling Sam," as the big boss is known behind his back, is the king of tedium for only one reason: Whenever you ask him for a merit raise, he comes up with 12 reasons why he can't give you one, including the fact that if your work doesn't improve the firm may fail within the year.

Do you recognize any of these familiar office bores: If you do, remember one thing.

Sometimes it takes one to know one.

Shriver Says Johnson 'Not Soft On Reds'

CLEVELAND (AP) — Sen. Barry M. Goldwater was wrong in his charge that the Johnson administration is soft on Communism, R. Sargent Shriver, director of the Peace Corps and head of the War on Poverty program, said here Tuesday night.

Shriver, speaking at a Knights of Columbus dinner here Tuesday night, noted that Goldwater, the Republican presidential nominee, voted against the civil rights and tax cut bills, both of which Shriver said are "effective anti - communist measures."

IMPORTANT VISITOR. Archbishop Makarios, president of war-torn Cyprus, rarely gets a chance to meet his people. Here, he greets a curly-haired toddler.

Jaycees Given Work Report On Master Plan Preparation

The work completed to date on the city's master plan was outlined by Dan Zeigler at a dinner meeting of the Junior Chamber of Commerce Monday night at the Travelers Hotel.

Zeigler is a planner for Carol V. Hill & Associates, the firm conducting the surveys and preparing the master plan.

He also reviewed the need for planning in general. Thirty attended.

The Jaycees are aiding in the project. Members distributed a questionnaire to local businessmen earlier this month and they will be collected Saturday.

One section of the questionnaire concerns the finances of each business. This information is confidential and as the Jaycees collect the first section, they will give each businessman a stamped, addressed envelope to mail the confidential information back to the city planner.

It was announced Phil Boukert, state president, will visit East Liverpool Nov. 18.

He will be taken to Wellsville and Steubenville by motorcade. A luncheon will be held in his honor at Steubenville.

Dale Kidd, president, conducted business. Members voted to support the one-tenth mill mental health levy in Columbiana County and the renewal of the seven-tenths mill City Hospital levy.

A Spoke Award was presented William Devon, city patrolman. It is presented to members who earn a certain number of points, based on their activity, during their first year of membership.

The Board of Directors will meet Nov. 9 and the next membership meeting will be Nov. 23.

Revolver Given As Evidence In Nurse Slaying

CINCINNATI (AP)— Authorities began presenting evidence today in the Wanda Cook murder case to the Hamilton County grand jury in an attempt to get an indictment against Robert Abbott, 21, Dayton, Ky.

The evidence now includes a .22 caliber, six-shot white-handled revolver, which police believe might have been the murder weapon.

Hamilton County prosecutor Raymond Shannon said the gun "is another link in the total chain of evidence."

Abbott, in jail in Newport, Ky., has been charged by police with first degree murder. He has refused to waive extradition to Ohio and an indictment must be returned before extradition proceedings can be initiated against him.

Man Carrying 2 Guns Near Talk By Johnson Free

JACKSONVILLE, Fla. (AP) — A young Michigan steelworker who was carrying two guns when he was arrested a few blocks from where President Johnson was speaking Monday, is free.

Police dropped a vagrancy charge against Bruce Lee Cornell, 23, of Wyandotte, Mich., Tuesday. They said it was determined he was innocently passing through Jacksonville when the incident occurred.

Police arrested Cornell, a former Navy enlisted man who was once stationed here, in a downtown bank. They found an unloaded carbine in his carrying case and a loaded pistol in a zipper bag. He had an account in the bank.

Wellsville Planners Will Air Annexation

A public meeting to discuss annexation will be held by the Wellsville City Planning Commission Friday night at 8 in Room 101 at the high school.

Various areas have been considered in the past for annexation, with Hillcrest as one of the most popular choices.

The commission includes Ed Pugh, chairman, Paul B. Nightingale and James Salsgiver.

Thant Relays Plans To Delay UN Opening

UNITED NATIONS, N.Y. (AP) — Secretary-General U Thant has relayed to the 112 U.N. members a proposal to delay the opening of the General Assembly from Nov. 10 to Dec. 1.

A spokesman said a few nations have expressed approval in addition to the 41 countries that made the request.

The postponement was sought to give the United States and its allies time to try to convince the new Soviet leaders the Soviet Union should pay about $55 million in U.N. peacekeeping dues. Failure to pay could cost Moscow its vote in the assembly.

Harry Jeffra, former featherweight and bantamweight boxing champion, is stable manager at Pimlico racetrack in Baltimore, Md.

Record Sales Due

ST. PAUL, Minn. (AP) — Thompson - Ramo - Woolridge, Inc., will have record sales of $550 million this year and earnings will be substantially higher than the 1963 record of $15,165,000, the president of the Cleveland, Ohio, firm predicts. H. A. Shepard, T-R-W president, said Tuesday the firm's net income for the first nine months —$16,940,000 or $3.50 a share— already has surpassed total earnings of last year.

Johnson Promotes Astronaut Glenn To Colonel In Marines

WASHINGTON (AP) — President Johnson, calling John H. Glenn Jr. "a man who can orbit the earth . . . but can't learn to stand up in the bathroom," has promoted the former astronaut to the rank of colonel in the Marine Corps.

The President bestowed the honor on the Ohio spaceman in the White House garden Tuesday despite Glenn's request that he be passed over for promotion of his impending retirement from military service.

Glenn, prevented from running for the Senate in the Ohio primary last May because of a head injury suffered in a fall in the bathroom of his Columbus apartment, had asked that he not be promoted so there would be room for some other officer to move up.

Praising Glenn for displaying "an unselfishness all too rare," Johnson said as he presented the eagles of a colonel to the space hero:

"Col. Glenn felt his promotion would deprive another worthy American of a deserved award. There are few people who reason this way."

The President called Glenn one of "the most distinguished Americans" and said he was "the kind of man you want your boy to be and the kind of fellow I like to call my friend."

Johnson, who solved Glenn's objection to the promotion by adding one name to the list of nominations for colonel, said he felt "we should not be deprived of doing what is right. So I invited him here to the first house of the land to receive from his commander in chief an honor he did not seek and did not desire."

Glenn's wife, Annie, and Secretary of the Navy Paul Nitze pinned the eagles to the tunic of the first American to orbit the earth. He thanked Johnson and shook his hand but made no public response.

Glenn is expected to assume the executive post of a soft drink company after his retirement, which Glenn said depends upon a physical examination he will take shortly.

Before the President and Col. and Mrs. Glenn left the garden to go into the presidential office, Johnson turned to the cluster of newsmen and photographers about him and said:

"Let this be a lesson to you. Here's a man who can orbit the earth and keep Congress on the edge of its seats but he can't learn to stand up in the bathroom."

East End Post Will Sponsor Children's Halloween Party

Plans were completed for a Halloween party for children of members, and a dance for members, at a meeting of American Legion Post 374 Monday night at the East End home.

The children's party will begin at 5 p. m. Friday and will feature prizes, gifts and movies. The Larry Myers Dance Studio will provide entertainment.

Members and guests will hold a costume ball Saturday evening from 10 to 1.

Plans were also announced to participate in the Veterans Day parade Nov. 11 and to sponsor a banquet Nov. 14. The banquet, at the post home, will be followed by a dance, according to Vincent McGeehan, second vice commander.

James Cregar, commander, named Paul Gill to assist Dave O'Hanlon, commander of the Sons of Legion, and Denzel McKinney to work with Robert Nutter and Vance Floreno on the Gifts-for-Yanks project.

John Ruhe, Americanism officer, announced that a flag had been given to the Spring Grove Cemetery, and said that the Veterans City Council will meet Nov. 6.

Paul Beck, first vice commander said membership now stands at 273 for 1965. James Wallover, service officer, said that Dave Marlett, Ruth Crawford and Robert Milne are hospitalized.

Bill Sharp was honored as Member of the Week. A movie was shown by Tad Galloway. The next meeting will be Monday.

The post was host to the County Bowling League Sunday with 125 attending.

Uninjured In Wreck

ELKHART, Ind. (AP)—Charles A. Blizzard, 47, of Malvern, Ohio, escaped uninjured Tuesday when his pickup truck loaded with dynamite hit a bridge abutment near Clarksburg and plunged into a creek. No explosion occurred, and fire officials were called to pump the creek dry and remove the explosives.

Humphrey Rips Into GOP In Address At Cincinnati

CINCINNATI (AP)—Sen. Hubert H. Humphrey spent about two hours in Cincinnati Tuesday night, but wasted little time in ripping into the Republicans in his rapid-fire manner.

Humphrey spoke to about 1,000 persons at a $25 - a - plate Democratic fund-raising dinner in honor of President Johnson.

The Democratic vice presidential nominee's appearance came about two weeks after a similar, two-hour campaign visit here by President Johnson.

"The American people do not want Barry Goldwater's finger on the nuclear trigger," Humphrey said of the GOP presidential nominee.

"In no area is the difference between President Johnson and Sen. Goldwater greater than on the question of responsibility in the field of international affairs," he said.

"In no area are Sen. Goldwater's views more dangerous to the safety and welfare of all mankind," Humphrey added.

Humphrey said "the area of the fast draw and the quick solution in foreign affairs is over. It died at Hiroshima, when the atomic bomb was detonated in 1945."

"The area of long twilight struggle is here. The awesome question facing every American on Nov. 3 is this:

"Do you want a president who will devote his enormous energies toward leading us through that twilight struggle to the dawn of a brighter day for free men everywhere?

"Or do you want a candidate who casually accepts the possibility that that twilight will suddenly be lit up by the blinding flash of nuclear holocaust?" Humphrey asked.

Humphrey was introduced by Anthony J. Celebrezze, secretary of health, education and welfare, who also made a campaign speech at Hamilton Tuesday.

The visit here was Humphrey's first during the campaign.

Other Democratic notables at the affair were state Democratic chairman William L. Coleman, Democratic congressional candidates John J. Gilligan of the 1st District, Harry A. Sand of the 2nd District and Robert E. Sweeney, at large.

Humphrey went from here to Lexington, Ky.

Miller Says Johnson Uses 'Arm-Twisting Techniques'

LA CROSSE, Wis. (AP) — Rep. William E. Miller says President Johnson is using "arm-twisting, politically patronizing techniques" including defense contracts to lure the support of businessmen.

The Republican vice-presidential nominee charged Tuesday night that Johnson was arranging "the political wedding of big business, big labor and big government" and said this was the same concentration of power that destroyed freedom in Nazi Germany and Fascist Italy.

"The balance of power so essential to a free society had been eliminated" in those two nations, Miller said, "and the people had no effective voice."

In drawing a parallel between developments under Johnson and those under the dictators Hitler and Mussolini, Miller delivered one of the strongest of his campaign attacks on the Democratic President.

The GOP nominee took up the role of the business community in the 1964 campaign in a visit to Detroit, where he addressed some 1,000 persons at a meeting of the Economic Club.

Heading westward in his final week of campaigning, Miller had visits to four cities on his schedule today — La Crosse, Grand Forks, N.C.; Aberdeen, S.D., and Missoula, Mont.

The strongest portion of his attack on Johnson was in a statement Miller had issued as he arrived in Detroit. In this he charged that the President was using "arm-twisting, politically patronizing techniques" to forge a union of big government, big business and big labor.

He did not read the statement to the Economic Club but concentrated there on what has been a major theme of his campaign: a detailed exposition of the views of Arizona Sen. Barry Goldwater on control of nuclear weapons.

Johnson, Lady Bird To Vote In Texas, Get Returns There

ALBUQUERQUE, N.M. (AP) — President and Mrs. Johnson will go to Texas to vote in person and to get the election returns there next Tuesday night.

Without going into details, White House press secretary George Reedy announced today that the Johnsons will go to their home state, instead of remaining at the White House to get the returns.

Under Texas law, the Johnsons could have cast absentee ballots.

Reedy said the Johnsons will fly to Austin Monday night and remain overnight. He did not say specifically, but presumably they will go to Johnson City early Tuesday morning to cast their votes.

The LBJ Ranch is in Gillespie County, which hasn't gone Democratic in a presidential election since 1932, but Johnson maintains a home and voting eligibility in Johnson City which is in adjoining Blanco County.

Presumably, the Johnson daughters, Lynda Bird, 20, and Luci Baines, 17, will accompany their parents to Texas. The family is expected to make an election eve television appearance.

Regardless of the outcome of the election, Johnson presumably will go to Austin's Civic Auditorium as soon as the election outcome is known to make a television statement.

Bolton Urges Russia Hold Free Elections

YOUNGSTOWN, Ohio (AP) — Rep. Oliver P. Bolton, R-Ohio, says the United States should call upon the new leaders in Russia for free elections and the removal of troops from the captive nations of eastern Europe.

Speaking at a Republican rally here Tuesday night, Ohio's 11th District Congressman, who is a candidate for Congressman-at-large, said the people of the captive nations are looking to this country for new initiative and leadership. "We may never have a better opportunity to peaceably reassert Woodrow Wilson's cherished right of self-determination than at the present time," he declared.

Cubbing awards went to Stambolia, Bruce Mays, Jeffrey Morgan, Jeffrey Cartwright, James Cunningham, David Barker, David Mitcheson, Charles Wolfe, Jerry Caplin, Gary Cunningham and Dennis Thompson. David O'Hanlon is cubmaster. Lynn Cowan presented the awards.

Den mothers had the program. The Christmas party will be Dec. 19 and the Blue and Gold banquet Feb. 13.

Peace Marchers Stage Boat-In At Florida Dock

MIAMI BEACH, Fla. (AP) — Five peace marchers are staging a boat-in at the Coast Guard dock here.

The marchers, members of the Committee for non-violent Action and Quebec-to-Cuba peace march, sailed for Cuba Tuesday in a 24-foot launch to protest war and the U.S. ban on travel to Cuba.

A short distance out, they were stopped by the Coast Guard, which confiscated their boat and towed it to the dock on orders of the U.S. attorney general.

The demonstrators refused to leave the boat.

"We'll never leave voluntarily," said Bradford Lyttle, 36, skipper of the launch. "This is the Caribbean wall. We have the right to travel. It's as bad as East Berlin."

Others aboard the boat were Erica Nezer, 38, a former Chicago medical technician; Marvin Davidov, 33, a former St. Paul, Minn., art dealer; Peter Gregonis, 38, Oregon electronics technician; and Robert Clapp, 26, a California student.

Man Getting Citation By Officer Kills Self

MASSILLON, Ohio (AP) — Charles Simpson, 55, of Akron, killed himself in the front seat of his car with a .22-caliber rifle Tuesday while a state patrolman was a short distance away issuing him a citation. Patrolman James W. Pribble stopped Simpson on Ohio 93 and started to issue Simpson a citation for having a bad muffler and using license plates on a car belonging to his son.

Simpson told Pribble he wanted to get something from the glove compartment. Simpson walked back to his auto, locked both doors and shot himself. Stark County Coroner G. S. Shaheen ruled suicide.

Britain Favors China

UNITED NATIONS, N.Y. (AP) — Patrick Gordon Walker, new British foreign secretary, says his government favors asking Red China to join the Geneva disarmament talks next year.

"Of course one must consult with the other countries involved," he told a news conference Tuesday night on his first visit to U.N. headquarters.

Council O.K. Given Lisbon Gas Proposal

LISBON — Council Monday night approved on third and final reading an ordinance granting the Columbia Gas Co. a four-year franchise, after a discussion by one councilman concerning the new rates.

The final vote was 5-1 with Clyde Pike, Mrs. Blanche Neill, Raymond Dixon, Fred Steele and Robert Dornon approving passage.

Robert Kelm opposed, claiming that the base rate was raised from 25 cents per 100 cubic feet to 25.25 cents, although W. R. Hockradel of Salem, representative of the utility, said the cost for consumers will be one eighth of a cent less per 1,000 cubic feet than the current rate.

The new rates will become effective after legal advertising.

In other business, Council ordered study of the only offer received for a new one-ton dump truck for use on streets, when bids were opened at noon yesterday. The street committee was given the bid for study and recommendation. Lehman Ford bid $3,596.27 for the truck, allowing $764 trade-in, leaving the total cost $2,832.

The street committee will check the specifications before reporting on the bid at Council's next meeting Nov. 9.

Bills of $1,836.40 were ordered paid.

'Men Making Comeback'

Man, 42, Elected Head Of Nurses Association

PHILADELPHIA (AP) — Men have been nurses since the beginning of time, says a man who heads 10,000 nurses.

"And though women dominate the profession today, men are making a comeback," adds Clifford H. Jordan, 42, a registered nurse who is president of the 10,000-member Pennsylvania Nurses Association. It is holding its 60th annual convention here this week.

Jordan, a native of New Orleans, became a nurse in 1949 after leaving the Army. Now he is director of the School of Nursing and Nursing Service at Philadelphia's Episcopal Hospital.

"I think it is a good profession for men," Jordan said in an interview. "It is a good place to serve and make a decent living.

"After all, there have been male nurses since the beginning of time. All nurses used to be men. During the Crusades there was a religious order of men who went along to care for the sick and injured."

Jordan, whose wife is a teaching nurse on the University of Pennsylvania faculty, estimates there are 5,000 men among the nation's half million nurses. Most are in administrative work — directors of nursing schools or supervising hospital staffs.

About being president of the association?

"I think they selected me because I could do the work and not because I was a man," he said.

He believes more and more men will get into nursing. Most schools, once all girl, now are coeducational.

"Men can help alleviate the current shortage of nurses," he said. "They tend to stay on the job longer without interruption for marriage and family."

Church Figure Dies

INDEPENDENCE, Mo. (AP) — Dr. Floyd M. McDowell, Presidency, the highest governing body of the reorganized former member of the First Church of Jesus Christ of Latter-day Saints, died Tuesday. McDowell, in his 70s, was associated most of his life with Graceland College, the denomination's school at Lamoni, Iowa.

Moderate GOP Unit Endorses 71 Candidates

WASHINGTON (AP) — The Committee to Support Moderate Republicans today endorsed 71 Republican candidates in next Tuesday's election.

Nowhere in the statement released by the committee was the Republican ticket of Sen. Barry Goldwater and Rep. William E. Miller mentioned.

The group, formed recently, is headed by Charles P. Taft, former mayor of Cincinnati and brother of the late Sen. Robert A. Taft, R-Ohio. Included on its board are Henry Cabot Lodge, the GOP vice presidential candidate four years ago; Mrs. Clare Williams Shank, former assistant chairman of the Republican National Committee; and Arthur S. Flemming, secretary of welfare in the Eisenhower administration.

The committee said it is endorsing—and in many instances giving financial assistance 8 to eight GOP Senate candidates, 55, House candidates and six gubernatorial candidates. It also supported GOP candidates in Massachusetts for lieutenant governor and attorney general.

Among GOP Senate candidates to be endorsed was Robert Taft Jr. of Ohio, nephew of Charles P. Taft.

Ann Landers

ANSWERS YOUR PROBLEMS

Dear Ann Landers: I married Curt two years ago. He had a difficult time getting a divorce because his wife isn't the type who gives up easily. She got custody of their two teen-age children.

Three weeks ago Curt's son was injured in an automobile accident. At 2 a.m. Curt got a call from his ex-wife to come to the hospital. I went with him, of course.

When we arrived his ex was standing in the hall outside the operating room. She fell into my husband's arms as if they were still married. He made no attempt to unload her.

Curt has been going to the hospital every evening. I want to go with him but he won't take me. He says I'd better stay away because his son doesn't care for me, which is true.

I know Curt is seeing his ex at the hospital and it's driving me crazy. What can I do?—COFFEE NERVES.

-:-

Dear Coffee: Nothing. When you married a divorced man with children you should have expected problems. Your husband's ex has a legitimate call on the father of her children when trouble hits, and there is nothing you can or should do.

I can suggest what not to do, however:

Don't ask him any questions. Don't make any accusations. Don't insist on any loyalty oaths. And don't act shook.

Sad Grandmother

Dear Ann: I'm a 50-year-old grandmother who never has seen her grandson, although he lives within two miles of my home.

When my daughter, Greta, was a teen-ager she started to go with a lad I disliked intensely. I tried to discourage her from seeing him but she managed to meet him outside our home and I could do nothing about it.

When it appeared they were getting serious I told Greta if she married the young man I didn't want to see either one of them again.

On her 21st brithday they eloped and I was heartbroken. Greta told me her husband is very bitter about the way I treated him and that he will allow her to come here to see me if she wishes but that I'm not welcome in their home.

My grandson is 2 months old. I've been praying that one day soon Greta will bring the child and let me hold him in my arms. This morning she told me her husband gave orders that I'm not to see his son.

Please tell me what to do.—SAD M.

-:-

Dear Sad M.: There is nothing you can do, but I hope your daughter will ask her clergyman to talk to her husband.

If he sticks to the eye-for-an-eye philosophy he will regret it. He may hate the sight of you but he has no right to deprive his child of the love of his grandmother, nor is he justified in denying you one of the greatest joys of the last of life—for which the first was made.

Tired Gag

Dear Ann: I had a light case of flu yesterday and stayed home from work. My wife went next door for a few minutes and the telephone rang. I answered it. Some fellow must have been trying to call the Coast Guard and got our number by mistake because he wanted to know if the coast was clear.

Now that I think about it I'm beginning to wonder. What do you think about this, Ann Landers?—CHARLIE.

-:-

Dear Charlie: I think that gag is older than I am—and I'm no kid. I see by the envelope your letter is from New Haven. Maybe Yale ought to work you harder. You guys seem to have more spare time on your hands than you need.

Veteran Claim Of Democrats Hit By GOP

LISBON — Atty. Charles Pike, Columbiana County Republican committee chairman, has called upon Don R. Gosney, County Democratic Chairman, to withdraw from circulation all political material which the GOP spokesman says represents Rep. Wayne L. Hays and John Wargo, county recorder candidate, as veterans.

This action followed a letter from Atty. Howard M. Cole, past state commander of the VFW, calling attention to a booklet being circulated in Columbiana County by the Democratic Party, implying that both Hays and Wargo are veterans.

Atty. Cole's letter asserts "Mr. Wargo is not and never has been a member of the armed services; he is not and never has been eligible for membership in the Veterans of Foreign Wars."

It continues that "Mr. Hays is not and never has been on active duty with the armed forces; and he is not and never has been eligible for membership in any veterans' organizations."

"This type of misrepresentation by innuendo and association is a personal affront to every veteran who has been on active duty for his country," Pike said.

Atty. Pike contends that Hays had been in the ROTC while attending Ohio State University but never entered into active duty in World War II and therefore cannot carry the classification as a "veteran."

Chester Post Dinner Slated

Plans were made for a smorgasbord Christmas dinner to be held Dec. 12 at a meeting of Chester American Legion Post 121 Monday night in the post home.

The dinner will be open to all post members, guest members and the auxiliary.

It will include hors d'oeuvres from 5:30 to 7 p. m., dinner from 7 to 9, and dancing from 9 to midnight at the post home.

It was announced that the monthly social meeting for members in December will be held Dec. 4.

Plans were completed for a Halloween round and square dance to be held at the post home Saturday night.

John F. Morris, commander, appointed Byron Allison, John Corcoran and Harry Huff as a nominating committee for election for three members of the Board of Directors in December.

Morris also appointed Sayre Graham and John Merriman as a committee to work with Chester VFW Post 6450 in the annual Christmas party for children of the community.

Warren Jones was named "Legionnaire of the Month" for October. Refreshments were served by John Strum and Robert House.

The next meeting will be Nov. 9 at 7:30 p. m. at the post home.

Halloween Party Set For Irondale

IRONDALE — A masquerade parade, movies and public dance will feature the annual Halloween celebration sponsored by the Irondale fire department Saturday night.

Participants in the parade will assemble at the junior high school at 7:30 and proceed down Salt Run Rd. and pass the judge's stand at the fire station.

There will be first and second prizes for clown, hobo, old witch and story book characters, and first, second and third in miscellaneous competition.

Following the parade, movies will be screened at the school for youngsters.

A round and square dance will be held from 9 to midnight in the school gymnasium. Fire Chief Oliver Nicholson is chairman of the events.

150 Attend Girl Scout Event At Wellsville

Some 150 Brownies, Junior and Cadet Girl Scouts and leaders of the Wellsville area participated in the Juliette Lowe observance Sunday afternoon at the First Methodist Church.

The story of the early life of the founder of the movement was told by Miss Joan VanDyke. Mrs. Oda Mae Howell's Cadet Troop had the flag ceremony and Jayne Wolfe and Rebecca Miller, Cadet Girl Scouts of Chester, led in singing and taught the group hiking and other songs.

The room was decorated with Halloween novelties by Mrs. Harriet Lanam and Mrs. Ethel Clark. Appropriate refreshments were served.

Scouts Given Rank Awards

Everett Watson and George Schmidt were advanced to Star Scouts and Harry Brokaw and Richard Thornton to Life Scouts at a program held by Boy Scout Troop 12 Monday night at the Trinity United Presbyterian Church.

About 90 attended the event which included a Halloween party and a Parents' Night program.

Other rank advancements included Dean Galas, Donald Heacock and Robert Hilliard to tenderfoot, Jerry Garvey, Kim Burton and Alan Shaffer to second class, and Bruce Craft, Bill Williams, Michael Parkes, Michael Baxter and Michael Jones to first class.

Merit badges were presented to those advanced and to John Hales, Stephen Crowder, Donald Cochran and Brian Davis.

Service pins were given to Cochran, Hales, Craft, Williams, Shaffer, Burton, Danny Skidmore, George Wood and Tom Picciarelli.

Winners of costume prizes were Bill Haniotes, Kenny Jones, Danny Skidmore, Dale Jones, Dean Galas, and David Rabor.

Refreshments were served by the scout mothers.

Patches were distributed to those who attended Pioneer Camp in August and Junior Leader Training School in October.

Among those attending were Donald Skidmore, district commissioner; Dale Hoyt, assistant district commissioner; Bernard Locke, camping and activities, and institutional representative, Milton Reese.

Committeemen assisting in arrangements were Robert Kidd, Bernard Casto, Robert Heacock, Richard Jones and Wilbur Shaffer.

Monkey Business

DUNN, N. C. (AP) — Mrs. Herman Green reported some monkey business in her classroom at the Magnolia Avenue School. She went to the school a week before classes opened, not expecting to find anyone there. But, she reported, there was a small brown monkey in the classroom. No one could explain how the monkey got into the school.

Bringing Up Family

By DR. GARRY MYERS

Children Sometimes Feign Illness

Perhaps every adult can remember a few times when, by pretending he was sick, he got or escaped doing something he didn't want to do. You may recall how Tom Sawyer collected money from other boys for the privilege of seeing his sore toe. One of my grandsons, at about the age of twelve, while working with me in the garden, tells how, when about six, he pulled a hoax on his parents.

Dr. Garry Myers

Voluntarily he told me how he had them so worried over his "high temperature" that they rushed with him to the hospital, only to discover that he had placed the thermometer on a very hot water bottle.

After he had finished this interesting account, he added: "And wasn't that a baby trick, Grandpa?" I laughed with him and felt delighted that he would be so freely companionable.

—:—

WHEN I was a teacher, I did not point to things on the blackboard with my right index finger, which is slightly crooked at the end (just a way one more or less unconsciously tries to hide his physical defects). This slight deformity resulted from a foolish experiment with a hand - run cider press when I was eight or nine years old.

I well remember how I enjoyed the self - encouraged, long delayed recovery from that finger injury and how I escaped many jobs I usually had to do, while I got great satisfaction from following my father and older brother around as they were doing similar jobs.

As I recall, I was able to keep it bandaged for weeks and I never attempted to use my left hand to do the many things I could have done.

Once in this column I did tell of the time when I was in the first grade and when my next-older sister was home from school with a slight illness. I would "get sick to my stomach" and cry every morning soon after school began until I was taken home by my older brother. This went on several days before my father noticed how generously I ate at lunch of the good noodles my mother made.

—:—

NEXT morning he said to me: "Garry, don't get sick today," and I didn't.

Over the years I have read many letters from parents about the school child, typically in the early grades, who obviously plays sick on a school morning in order to stay home. Often the letter states that this child "never gets sick" on weekends or holidays and usually feels very well later on when allowed to stay home from school. An occasional letter tells of a teenager getting sick on a school morning to escape a dreaded test that day.

To the mother, especially of the child in the grades, my advice is this:

When your child says he is sick on school mornings, take his temperature. If he has a fever, telephone your doctor for advice or have him come to see the child.

If there is no regstered fever and the child still insists he is sick, take him at his word. Put him to bed to stay there all day and night wth light diet and without too much attention; no radio, TV, books or playthings. You may know next school morning whether or not he had malingered.

—:—

BE ALERT early in your child's life to his possible malingering. Aim to keep him from getting special attention or escaping unpleasant duties by "playing sick." Uncorrected early, malingering can become a costly practice for a life time. Be sure he never sees you or your spouse malinger.

My bulletins, "Educating Your Child in Responsibility," and "Parents Can Help Child Succeed at School," may be secured by sending a self - addressed, stamped envelope to me in care of The Review.

City Union Launches Plans For Yule Party

Plans for the annual Christmas party were started when Local 677, American Federation of State, County and Municipal Employes, met Monday night at the Ohio Valley Gas Co.

Mrs. Leah Kelly and Mrs. Catherine Martin were named to make arrangements for the party. Fifteen attended. Three new members were inducted. Ken McCarty, president, presided.

John Trimboli of Youngstown, district representative, led a discussion on working conditions in various city departments. The next meeting will be Monday, Nov. 9, at the conference room of The Review.

Store In Kentucky Has Personal Touch

PAINTSVILLE, Ky. (AP) — The personalized shaving mug in the village barber shop long ago passed from the scene, but Bob Montgomery wouldn't let the idea go by.

In this sundries store, he has a rack of coffee cups inscribed with the names of his regular customers.

Not everybody gets a cup. "A man has to drink about a gallon to qualify," says Montgomery.

Hints *from* Heloise

— By Heloise Cruse —

Dear Heloise: I have found the simplest, easiest method for cleaning an electric cooker.

Just fill the cooker with water, add a little detergent, put the lid on the cooker, and turn the heat on low.

Let the cooker steam until all of the residue has loosened, then empty the cooker, wash it, rinse with water and dry.

O. L. C.

DEAR HELOISE: I use transparent adhesive-backed paper for those in-between places, such as between the stove and counter, that don't quite fit together. I let it overlap about an inch on each side.

The grease splatters, etc., can be wiped off with a damp sponge, nothing falls down between the stove and counter, and it's not unsightly because it's practically invisible.

J. G.

Listen, gals. . . .

Lots of recipes call for a cup and a half of milk, etc. . . .

If this happens in your kitchen, DON'T waste your time trying to read that hidden half-cup mark on your old measuring cup.

Pick up your half-cup measure and fill it three times . . . You'll have a smaller cup to wash, too.

WHY don't they make the marks where we can see them?

ASTIGMATISM HELOISE.

-:-

DEAR HELOISE: This is the way we have settled the allowance problem in our home.

We have four boys, ages 14, 9, and 6-year-old twins, and in order to establish how much allowance each one gets, I multiply the grade they are in at school by 10 cents. So the eighth grader gets 80 cents, the fourth grader gets 40 cents, and the first-grade twins get 10 cents each.

All four boys are required to make their own beds before noon or they are fined.

I try to apportion the fines. For instance the boy getting 80 cents a week is fined a dime for each day he doesn't make his bed. The one getting 40 cents is fined a nickel, and the twins are fined a penny.

Sure works at our house.

RUTH.

DEAR HELOISE: Never throw out little dabs of perfume . . . add them to a bottle of rubbing alcohol.

Wow! What a lift the fragrance gives to a sick person, or even just a tired person, when rubbed with the scented alcohol.

EVA HUFFMAN.

-:-

DEAR HELOISE: When I buy little boys' trousers, I turn them wrongside out, and mark on the pocket (with a laundry marker or indelible pen) what type of material it is, and any caution such as "don't use bleach, etc."

Then, after the tags are gone, I still know which trousers are wash-and-wear, and which setting to use on the iron for other types of material.

MARGARET E. HELLER.

DEAR HELOISE: Everyone, on occasion, has those want-to-go-back-to-bed mornings.

The first thing I do is wash my face and comb my hair. Where? The dreary bathroom.

This morning I decided to do something about that.

I got out a cranberry-colored vase (my bath is pink), put an assortment of pastel artificial flowers in it, and sat it on the dressing table by the mirror.

Next, I got a supply of bath soap (most brands come in lovely colors), unwrapped all the bars and put them in an apothecary jar by the basin.

Now when I comb my hair, the first think I see is a bouquet of spring flowers, then a jar of colored soap when I wash my face.

It gives me a lift, and believe me, my husband and four children appreciate a happier wife and mother . . . not one half-asleep.

DOROTHY BROWN.

Why not get some cute frames at your dime store and put those darling baby pictures on the wall, too? I did. It's amazing the thoughts that run through my noggin each morning when I look at them! ! !

HELOISE.

U.S. Women, Children Are Leaving Guantanamo

WASHINGTON (AP) — Nearly half the American women and children living at Guantanamo when Cuba shut off the naval base's water supply last winter have returned to the United States, the Navy reported.

The U.S. family population of Guantanamo totaled 1,747 as of Oct. 1. Last February it stood at 2,994. All dependents are expected to be gone by February 1966.

Gradual removal of dependents of American naval and civilian personnel was ordered Feb. 11 as one of a number of measures designed to make the base self-sufficient.

Several days earlier Fidel Castro shut off Guantanamo's fresh water source in retaliation for U.S. seizure of some Cuban fishermen who had strayed into American waters. Less than a month later, Castro offered to turn the water back on but the United States spurned that offer.

To make the base independent of outside water sources, the government ordered construction of three plants for converting salt water to fresh, with a daily output of 2.2 million gallons.

Two of the three plants have been finished and are producing 1.5 million gallons a day, the Navy said. The third plant is on schedule and due to be in business in mid-December.

As a result, Navy tankers which had been shuttling back and forth between Florida and the Guantanamo base for seven months have been relieved.

Families leave the base as their menfolk finish two-year tour periods. New men are sent to Guantanamo on one-year tours, without their wives and children.

The military population of the base is 4,125 men, plus 154 U.S. civilian workers.

To keep morale from slipping, the Navy said it is expected that married men sent to the base without their families "will be able to return to the States once during their tour for leave."

"Extensive plans are in the mill for Christmas leave," the Navy said. "Single men will also be given leave in the States or in Jamaica."

The number of Cuban workers coming onto the base each day and returning home to Castro territory at night has been reduced by about two-thirds from the 1,800 total at the time of the water cutoff.

The Navy said between 500 and 600 Cuban workers come through the gate on an average work day. Another 600 or so live on the base and never cross back into Cuba.

The Problem Of The Computers

Despite promises from the TV networks to keep a conservative rein on their tons of electronic computers, the presidential election is likely to be all over before millions of voters in the western fourth of the United States have marked their ballots.

Hal Humphrey

A committee of nine state governors headed by Nevada's Gov. Frank Sawyer has asked the three networks to restrain themselves from making any flat announcement of a winner until all polls are closed. And when TV commentators make a prediction based on computer results, the committee wants it clearly labeled as only a prediction.

-:-

THE NETWORKS are cockier about their vote projections and analyses than they were four years ago when CBS jumped the gun and called Richard Nixon an early winner. They have done much more advanced research this time, as proved by the accuracy with which they predicted the various recent primary elections.

Naturally, too, the networks are not convinced by the politicians that an early declaration of a winner has any effect on citizens in the West who have not had a chance to vote yet.

But in the interests of clearing up the debate, and possibly avoiding government regulation, CBS this Nov. 3 is launching what it calls "a massive study" of voters in the West to determine if they are influenced by early election declarations.

-:-

IT GOES without saying, therefore, that CBS intends to have an early winner spewed out of its computers. Otherwise, there would be nothing to observe in this "massive study."

William McAndrew, vice president in charge of NBC news, admits he and his staff want to be first among the networks with all election returns, but not, he says, at the expense of being inaccurate.

"You may recall," says McAndrew, "how NBC held back from making a prediction on the Goldwater-Rockefeller primary race in California. That was because our early projections showed only a one-point difference between the two candidates, and we considered it much too close for a snap judgment."

-:-

THIS WAS the primary, by the way, which produced the governors' investigating committee. Twenty-two minutes after the polls closed in Southern California, CBS said, "We declare Goldwater the winner." Polls in Northern California were open for another 38 minutes after that pronouncement.

Bill Leonard, executive producer of the CBS election unit, says in retrospect he would use a better word than "declare" the next time.

He leaves no doubt, however, that he will use the network's vast "Vote Profile Analysis" system to determine as rapidly as possible which way the election is going.

"Don't forget," says Leonard. "A lot of the Eastern states will have their votes all tabulated by 7:45, Eastern Standard Time. We won't turn into fact that which is only our judgment, but we will call it for what it is."

-:-

IT SHOULD BE mentioned here also that there is more at stake for the networks than just pride of being first. All three networks are selling as much of their election coverage as they can to sponsors who want to be aligned with the "winning" network.

The sponsors assume that the network with the most "firsts" will have the largest audience, although this doesn't always follow, and they prefer to buy time with the highest audience rated network.

About the only way we Western voters can get in on all of this excitement in 1968 is for the governors of our 11 Western states to push through legislation which would close our polls at 4 p.m. instead of 7 and 8 p.m.

Area Councilor Talks At Session Of Vocal Group

Don Barcus of Sebring, area councilor, spoke at the meeting of the East Liverpool SPEBSQSA Chapter Monday night at the Elks Club ballroom.

Sam Wolfe, president, named Bill Osborn and Wilbur Newman to the nominating committee. They will report at the next session Monday.

The group signed up for jackets to be rented for the performance Nov. 28 of the Area Chorus at Steubenville High School.

Crime On TV Held Cause Of Delinquency

WASHINGTON (AP) — A Senate subcommittee contended today that televised crime and violence is a direct cause — though not the only one — of juvenile delinquency.

In an interim report, the subcommittee said:

"On the basis of expert testimony and impressive research evidence, a relationship has been conclusively established between televised crime and violence and antisocial attitudes and behavior among juvenile viewers."

But it tempered its comments by stating that it did "not believe that television is either the sole or most significant cause of juvenile delinquency."

Sen. Thomas J. Dodd, D-Conn., chairman of the subcommittee to investigate juvenile delinquency, said that the findings are significant because "each day more than 25 million children 12 and under look at television," spending "on the average, more time watching television than they do in either school or church."

At the subcommittee's most recent hearings, the report added, network representatives "were now prepared to admit, in very general terms, that there was some kind of relationship between televised violence and the molding of children's attitudes and behavior."

253 Issues Wait Voters In 40 States

WASHINGTON (AP) — Voters in 40 states will ballot next Tuesday on home state issues ranging from housing discrimination to capital punishment.

Up for decision are 253 proposed state laws or constitutional amendments.

The spotlight is on a proposal which would prohibit the California Legislature from barring discrimination in real estate sales, as it did in a law enacted last year. Some observers think the proposal might play a role in determining who gets the state's 40 electoral votes in the presidential election.

Real estate interests and other groups are leading the fight for approval of the California proposition which would permit a person to sell, lease or rent property to any person he chooses.

Gov. Edmund G. Brown and other state leaders oppose the amendment and defend California's so-called fair housing law which prohibits racial discrimination in real estate transactions.

Neither President Johnson nor Sen. Barry Goldwater has taken a stand on the matter but some political observers think a big turnout in favor of the proposal would help Goldwater, the Republican nominee.

Gambling proposals of some sort are on the ballot in four states — California, Washington, Montana and Arkansas.

California voters have a choice between two amendments. One would authorize state-franchised, privately operated lotteries, while the other would prohibit privately operated lotteries. If both pass, the one with the highest number of votes wins.

In Arkansas the question is whether to legalize the gambling casinos in Hot Springs, Ark., which have operated off and on in the past outside the law.

In Montana the proposal would prohibit the legislature from barring gambling. Washington voters are being asked to legalize bingo.

Oregon voters will decide whether to abolish capital punishment in their state.

Reapportionment of state legislatures, a big item in the 1962 election, goes to the voters in only two states — Florida and New Hampshire — and in Florida the question may be moot in light of U.S. Supreme Court decisions on the subject.

Massachusetts voters will decide whether to raise the governor's term from two years to four. Voters in Illinois, Maryland, Massachusetts, New Mexico and Oklahoma will vote on the questions of legislators' pay and length of legislative sessions.

The only question in Michigan is proposed adoption of the so-called Massachusetts ballot which would make split-ticket voting easier.

Voting law changes are up for decision in Connecticut and Hawaii, while Kansas and North Dakota voters will decide on proposals to abolish personal property taxes on certain possessions.

Among the bond issues up for approval are one for $200 million for roads in West Virginia and $100 million for schools in North Carolina.

Firemen Hear School Report

Paul Miller and Thomas Ulmer reported on the county fire school Sunday at Leetonia at the meeting of the Calcutta volunteer fire department Monday night.

General rescue was the subject of the fire school along with use of plastic bandages.

A pair of heavy - duty wire cutters for use on the fire truck was purchased by Dick Wright.

Firemen also voted to host the meeting of the Tri - State Firemen's Association Nov. 19. The Calcutta department will be in charge of arrangements and refreshments.

Chief Laverne Seckman also spoke before attending a meeting of the St. Clair Township trustees. Dale Horger, president, presided. Roll call was taken by Norman Neal. Eighteen attended.

100 At Pine Wood Derby Of Cub Scouts

About 100 boys and their parents attended the pine wood derby of Cub Pack 43 of the Pleasant Heights Parent-Teacher Association Saturday afternoon at the school.

John Dickey was winner; Jeff Davis, second, and James Tipton, third, and James Corbette was winner in Den 1. Don Featherstone, Den 2, and Davis, Den 3.

C. A. Shaffer was judge, and Hayden Howell, committee chairman, was in charge. The next regular meeting of the pack will be announced.

Where Fund Dollars Go

Summer games, contests, hikes and pet shows — in which clowns like Sue Green's "Quack Quack" participate— are provided for area youngsters by the Recreation Council, one of 12 agencies helped by the United Fund.

Almost 500 boys and girls daily attended the 16 playlots of the Council from June 15 to Aug. 21 this year, with 27 adults employed — 16 supervisors, six substitutes, three regional supervisors, a handicraft director and a general director.

The regional supervisors were in charge of such inter-playlot competition such as baseball, basketball, softball and volleyball. Ninety baseball games were played along with 45 games of other sports.

Special events included doll shows, races, talent contests, wiener roasts, style shows and a picnic attended by 450.

The playground program is an important youth program for this area, providing supervised recreation for young people, proper guidance and physical development off the streets and away from the hazards of delinquency.

Your contribution to the United Fund helps continue this work of the Council. Give your "fair share."

Your Attitude Can Influence Diet

Attitude influences action. An attitude is a point of view, a way of regarding a specific problem, a way of looking at life.

Ida Jean Kain

For example, on reducing: One dieter writes, "My disposition is terrible when I'm dieting. . .I'm not fit to live with." Another: "I have a far better disposition when I weigh less. . .I'm happier." A third: "My family would much rather have me fat and cheerful than cranky because of dieting."

—:—

NOT infrequently an overweight reader will write pages explaining in detail why she simply cannot reduce. Her letter invariably winds up pleading for help. Yet there is no spark of enthusiasm in the entire letter, no conviction that she believes she can reduce.

Contrast that defeatist attitude with a letter that begins, "I've put up with this fat long enough! I have finally made up my mind to change my everyday ways of eating, count those calories and slim down to a size 16. . . ."

William James expressed it this way: "Human beings can alter their lives by altering their attitudes."

It takes courage to reason through to what your attitude really is, but honest fact-facing can bring needed insight. When you make up your mind to come to grips with the weight problem, then you begin to look for ways to achieve what you want. Regard the science of nutrition as a privilege, and your mind will dwell on the advantages.

Perhaps the stumbling block is that you look upon diet as deprivation, as something being taken away from you. You can't win by that way of thinking.

—:—

LOOK OVER my shoulder at a refreshing letter from a homemaker who decided to talk herself out of feeling deprived:

"One of the secrets of success in dieting is to talk to yourself. If you have ever noticed, when you are tempted by some fattener you say to yourself. . . 'Boy that looks good, I sure wish I could have some. . .but I can't!'? That's self-pity and no help at all!

"I tried saying, 'It might be OK, but I'm not even hungry.' Or, 'That cake would be dry.' The first few times you may not fully convince yourself, but the more you say it, the closer you come to realizing that you really don't want it." She signed herself "Positive Thinker."

Smart girl! In effect she is saying, "Eating those "empty" unneeded calories would be no favor to myself—I want to be slim!"

City Hall Pigeons Are Steel-Conscious

ALLENTOWN, Pa. (AP) — City Hall pigeons have become steel-conscious.

Workmen at the Allentown City Hall project discovered a vacated birds' nest — built entirely of wire. The birds had carefully carried, piece by piece, lengths of steel wire discarded by construction crews and built their own "steel - framed house."

The 100-year-old steel industry, constantly exploring new markets as it enters its Century Two, hopes people will follow the birds and build durable homes of steel.

3 Levies Due At Palestine

EAST PALESTINE — A new 2-mill municipal operating levy and renewals of current 1-mill street and 1-mill park levies are among special issues for city voters in Tuesday's election.

The new levy is being sought by city officials to provide revenue for expanded municipal operations as a result of annexation of areas in the northern part of the community.

If approved, it would be the first municipal operating issue in the city's history. A similar levy was turned down by a narrow margin in 1957.

The new levy would bring in $22,000 annually for two years. The park and street levies are also for two years.

In the East Palestine School District, which includes Negley and Unity areas, voters will decide a proposed renewal of a current 3.5-mill operating levy.

Cat Cooled Off

WICHITA, Kan. (AP) — Firemen answered a call from a residence and were asked to investigate strange noises coming from an air conditioner. When they pulled the air conditioner out of its case a cat hopped out and scurried away without explaining his presence.

State Checks Equipment For Road Use

State Highway Department officials from the Columbus and New Philadelphia offices inspected equipment at the Department's Leetonia garage Tuesday.

Chester Whitehouse, county maintenance superintendent, said the 50 men working out of Leetonia have been preparing several weeks for the annual inspection. The purpose is to assure that men and equipment are ready for the coming of winter snow and ice.

Participating in the inspection from the Columbus office of the Highway Department were Earl Stanley, maintenance field engineer, and Floyd Senff, equipment field engineer. Tom Toomey and Walton Skaggs, general maintenance superintendents, and William Maurer, equipment superintendent, were on hand from the New Philadelphia office. William Weir, Division 11 safety supervisor, and Walter McPherson, communications supervisor, checked their respective responsibilities.

Included in the annual inspection were 17 trucks with snow plows and cinder spreaders used for snow and ice control work in Columbiana County. Garage facilities and supporting equipment were checked.

Whitehouse said that last year state maintenance forces in Columbiana County worked 23,000 man hours to keep State and U.S. highways free of ice and snow. He said department records show the use of 4,125 tons of salt and calcium, as well as 1,545 tons of cinders and grits during the last winter season.

Board Consents 4-1

School Land Use Cleared For Sports Club Carnival

The Board of Education at a special meeting Monday night authorized the Blue and White Nonpareil Club to use a tract of ground at the rear of Westgate School May 24-29 for its annual carnival.

The motion to permit utilization of the ground, which it has used for several years, was approved by a 4-1 vote with John R. Woomer dissenting.

In presenting the request, Supt. Paul H. Blair said the club wanted to contract with the Gooding Amusement Co. for the carnival.

The request presented a problem since the date is three weeks before school is dismissed and will eliminate some of the play area, the superintendent said. School personnel will have to be especially watchful to see that youngsters do not wander into the carnival area.

In the past, the carnival generally has been held the last week of school or the week following dismissal. However, the May date is the only time the club can secure the carnival, Blair said.

He pointed out the board has in the past talked of improving the site as an athletic practice field, but lack of funds has prevented any action.

After learning the board has $2,212 remaining in the improvement fund, Woomer said he believed the request should be turned down and the board should proceed with the improvement either by laying top soil and seeding the area or blacktopping it to provide additional paved parking spaces for football games.

The board also approved the rental of East Junior High auditorium to the Garfield Parent - Teacher Association for a benefit show on Nov. 10.

Enrollment of Larry Moore of Hammondsville as high school student on payment of tuition was authorized.

It had refused a similar request at its meeting Sept. 21 but reconsidered after the youth's mother and step-father appeared before the board.

It also approved payment of tuition for wards of Juvenile Court attending West Branch Local schools in Mahoning County and Marlington Local schools in Stark County.

A letter from Lewis Stoddard concerning proper raising of the American flag at football games was received and filed.

Samuel W. Brown suggested the board investigate the possibility of an ROTC program for high school youths.

Miss Kathryn Liebschner, clerk-treasurer, reported a balance of $197,822 in all funds, including $80,029 in the general operating account.

Cedar Key, bred by Kentuckian Bruce S. Campbell was claimed last year by Jerry Basta of Cedarhurst, N. Y., for $6,000. In the 4-year-old gelding's first 11 starts this year he earned $167,699. Basta lost the horse for $7,500 but reclaimed him for $9,000.

Junior Editors Quiz on Dog Traits

QUESTION: Why does a dog turn 'round and 'round when he wants to lie down?

★ ★ ★

ANSWER: Dogs have not always been domestic animals, with cozy beds provided by their human friends to lie down upon. The various wild dogs which were the ancestors of our present dogs often lived out in the open, hunting in packs when their combined strength might bring larger prey down. Under these circumstances, they did not have soft comfortable places to sleep, such as the cat's ancestors probably had in the jungle and forest, where there were many cozy hiding places, carpeted with moss or leaves. So the wild dogs became accustomed to making their own beds in the grasses which covered their hunting grounds. Scratching up the ground would soften it and remove irritating stones and sticks; turning 'round and 'round would bend the grass around as a bird does to hollow out her nest. This practice must have become so much a part of wild dogs' lives that their descendants, not realizing it was no longer necessary, went right on with it. So Jackie, the little Chihuahua, industriously scrapes up the rug in her master's home as if it were nothing but a flat layer of grass which instinct tells her should be flutted up to be more comfortable.

★ ★ ★

FOR YOU TO DO: Watch how a dog hastily gulps his food. This also is inherited from his wild ancestors, who had to eat hurriedly for fear that some larger animal might drive them away before they'd finished.

★ ★ ★

Shirley Brindle of York, S. C., wins today's combined prize of Compton's Illustrated Science Dictionary plus $10 cash for this question. Mail yours on a postcard to Junior Editors in care of The Review and you may win the weekly grand prize of Compton's Pictured Encyclopedia.

Testing Ground

Sinkiang, site of China's first atomic explosion, has all the geographic qualifications for a nuclear testing ground.

Like the desolate test areas of New Mexico, Nevada, Siberia and the Sahara, Communist China's westernmost province has rugged mountains, wind-swept plains and trackless deserts. Its name means "New Frontier."

The announced location of the explosion — the marshy salt flats near Lop Nor lake on the eastern edge of the mile-high Takla Makan desert — lies far from Sinkiang's scattered small pockets of population.

Remote Sinkiang is China's biggest and least populated province, the National Geographic Society says. It is four times bigger than California. Some 5,640,000 people farm in oases and fertile river valleys, leaving most of the 636,000 square miles to nomadic herdsmen and wildlife — the wapiti, ibex and great-horned wild sheep.

Sinkiang's capital and only large city — Urumchi — looks like an American Wild West town. The dusty main street is lined with frame buildings. Shoppers arrive on horseback or two-humped camels. Buckboards serve as taxis.

The Chinese Communists claim that government projects in reclamation and irrigation in Sinkiang have opened up millions of acres for farming. Fields of melons, grapes, wheat, cotton and corn now stretch far beyond the oases and river valleys. Chinese Army troops help out as technicians and construction workers.

Hazard Of The Job

NEW HARTFORD, Conn. (AP) —Firemen in rural areas have their special problems. For instance, fireman Robert Delaney was drawing water from a pond during a recent fire when he stepped on what he thought was a rock to get a better footing. The rock turned out to be a goose. As Fire Chief Arthur Desjardin described it: "The goose went one way and Bob went the other — right into the pond."
